TUBEROUS BEGONIAS

Stinton's "Claremont"

A.M. = Award of Merit

DOUBLE BEGONIAS

AGNES CLARK —A quite distinct colour best termed carmine-rose. The large, deep flowers last extremely well	21/-
ALBATROSS —White, vigorous and free	5/-
ALLAN CLARKE —Deep cardinal-red of perfect form, great depth and fullness; often 8 inches across. One of the most robust varieties. A.M.	15/-
BETTY HAMPTON —Coppery old-rose with yellow sheen; flowers well-formed, good habit	5/-
C. E. PEARSON —Orange-scarlet, beautifully waved petals. An enormous flower, often 6 to 7 inches across	15/-
CLAIRE MARSLAND —Beautiful rich salmon, shaded orange-red. Flowers freely and lasts well, vigorous, neat growth	21/-
CORIENTIA —Delightful old-rose colour of deep camellia form, frequently 7 inches in diameter; growth robust. A.M.	10/6
ESTELLA JEWELL —Blush white	5/-
EVEREST —Purest white, often 8 inches in diameter, excellent form; slightly waved petals. A.M.	10/6
FLORENCE BIGLAND —Apricot, deeper shade on edges; vigorous. A.M.	5/-
FLORENCE BUSH —Bright fiery-orange verging on scarlet. Flowers of perfect rose-form, free growth. A.M.	25/-
H. FRANKLING —Massive, rich vermilion; fine, vigorous variety. A.M.	10/6
HILDA LANGDON —Full flowers of lovely rose-pink. A.M.	7/6
IDA REEVES —Pure salmon-pink, fine form. Free	7/6
IRENE MAGSON —Rich reddish-purple, well-formed flowers with broad petals, excellent habit	10/6
LA BOHEME —Aureoline-yellow of good form; free	7/6
LADY ANN —Pale-rose, of large size and perfect form. Robust. A.M.	7/6
LADY DARESBURY —Salmon-orange, often 7 inches across. Extra vigorous, good habit. A.M.	12/6
LADY LILFORD —Primrose-yellow, deeper towards centre. Flowers of incurved form last well. Very robust. A.M.	7/6
LORD LAMBOURNE —Deep salmon-orange, lighter centre; free. A.M.	5/-
LORD RENDLESHAM —Exquisite salmon-rose. Plant has great vigour, producing flowers 7 inches across, splendid form	25/-
LOUISE ARNOLD —Lovely blush; flowers of 8 inches diameter often on a plant in 6 inch pot. Dwarf, neat habit. A.M.	10/6
LUCY DARE —Bright, clear rose-pink; large flowers of perfect shape, neat foliage; excellent for show-work. A.M.	17/6
MADAME LOUISE LAROQUE —Cream margined rose; vigorous and free	7/6
MARGOT LIPSCOMB —Form and colouring remind one of the rose "Madame Butterfly," only much larger flowers. Delicate blush, reverse lilac-rose. Very free, excellent habit. A.M.	21/-

MARJORIE PORTON —Large white, petals prettily waved; vigorous. A.M.	5/-
MILDRED BUTLER —Large blooms with undulating petals, cream shading to primrose. Very free and most useful for exhibition	7/6
MRS. R. R. ANDERSON —Bright rose-pink with distinct, white spots	5/-
MRS. J. B. BUTLER —Light salmon; large, perfectly-shaped flowers, petals of unusual substance. Fine for exhibition	10/6
MRS. J. S. BRUNTON —Neat habit, lilac-rose. A.M.	5/-
MRS. W. DODD —Unusual colour between orange and orange-scarlet; splendid habit; beautiful foliage. A.M.	12/6
MRS. J. RAEBURN MANN —Deep-rose; broad, smooth petals. Splendid habit. A.M.	5/-
MRS. J. L. RUSHTON —Buttercup-yellow, "Fimbriata Plena" type	5/-
MRS. T. N. WALDRON —Salmon-cerise of rose-form; vigorous	12/6
MOLLIE ANDERSON —Primrose-yellow, deeper lemon at base. Large flowers with smooth, shell-like petals; vigorous, good habit	10/6
MONA —White, very free	5/-
ORIOLE —Light apricot merging to buff-yellow in centre. Flowers of perfect form, erect habit. A.M.	12/6
QUEEN OF THE BELGIANS —Large flower of splendid form and substance; delightful, rich pink. A.M.	12/6
RUTH WARD —Large, deep rose-pink of splendid form, beautifully waved petals; dwarf. A.M.	10/6
SIR PHILIP SASSOON —Deep carmine-red of rose-form, petals slightly waved. Tall habit	12/6
T. CASE MORRIS —Rich crimson of superb form and remarkable substance; erect habit. A.M.	25/-
VIOLET BLACKMORE —Sulphur-yellow of perfect form and good substance. A.M.	7/6
VIOLET JACKMAN —Salmon-pink, smooth-petalled flowers of immaculate form; habit excellent, robust and free. A.M.	21/-
W. H. DALTON —Dark old-rose; large rose-shaped flowers, erect habit. A.M.	10/6
W. J. NASH —Well-formed flowers of rich golden-orange edged deep orange. Neat, free-branching habit, very distinct foliage. A.M.	30/-

BEGONIAS (PENDULA) TUBERS

ALICE MANNING —Beautiful yellow, extremely free	3/6
BLANCHE —Pure white, perfect, free habit	5/-
EDITH —Salmon-pink, perfect habit. A.M.	3/6
EUNICE —Light pink flushed peach, free. A.M.	3/6
GLADYS —Dark red	3/6
GOLDEN SHOWER —Beautiful and most aptly named. A.M.	3/6
JOAN —Rich coral-red, very charming	3/6
JULIA —Lilac-rose, true pendulous habit	3/6
MRS. BILKEY —Salmon-orange, always popular	3/6

TUBEROUS BEGONIAS

Stinton's "Claremont"

THE Tuberous Begonias are, without a doubt, one of our finest glasshouse subjects. They are easy to cultivate, provided that they are attended to correctly. Tuberous Begonias require a good rich fibrous loam to which a little charcoal has been added. Good drainage is essential. Many failures are due to the plants being forced into growth too early after potting.

When the tubers are potted they should be put into a frame over which there is a hessian roller, and allowed to come into growth gradually. We found it to be an advantage not to move the plants into the glasshouse until near the flowering stage.

Begonias will not thrive in a badly ventilated house. They require a maximum amount of light and air in order to obtain the most satisfactory results. Begonias grown in a closed glasshouse will become tall and weak, producing only small blooms.

It is not essential to have a glasshouse for the successful raising of Tuberous Begonias as they may be grown quite satisfactorily in a house constructed of calico on a wooden frame.

Our list includes many of the latest introductions, together with some very excellent mixed lines. Tubers are obtainable from August until October. As we always have a large demand for our Tuberous Begonias, we advise our clients to place their orders early and so avoid disappointment.

NOTE.—We would like to draw the attention of purchasers to the fact that all our Begonias are supplied in strong healthy two-year-old tubers and they are therefore definitely matured, giving a first-class result the first season.

DOUBLE TUBEROUS BEGONIAS

"CLAREMONT" IMPERIAL STRAIN

This superb strain of seedling unnamed Begonias has been carefully re-selected to a high degree of perfection. The flowers are fully double and are well up to exhibition standard. Available in separate shades of Crimson, Rose, Pink, Orange, Yellow and White; also available in a splendid mixture.

SEPARATE COLOURS 2/- EACH; 20/- PER DOZEN
MIXTURE 1/6 EACH; 15/- PER DOZEN

SINGLE CRESTED HYBRIDS

These hybrids are certainly a departure from the ordinary type of Tuberous Begonias. The single flowers have a crest or plume on each petal, in most cases the crests being of a deeper shade than the ground colour of the petal. The plants are vigorous in growth, and flower abundantly.

IN SPLENDID MIXTURE . . . 1/6 EACH; 15/- PER DOZEN

LARGE-FLOWERED SINGLE MIXED

These single flowered Begonias have a definite charm of their own. Richly coloured and distinctly marked flowers, together with self shaded varieties, go to make them something a little different from the ordinary single flowered Begonias. The plants are immense in size and give a lasting show of bloom.

1/- EACH; 10/- PER DOZEN

BASKET BEGONIAS

This is the drooping Begonia and is particularly suited to growing in greenhouses or conservatories, being very light and graceful in appearance. The plants are vigorous in growth and flower profusely.

SEPARATE COLOURS 2/6 EACH; 25/- PER DOZEN
MIXTURE 1/6 EACH; 15/- PER DOZEN

SINGLE FRINGED HYBRIDS

These beautiful hybrids producing a profusion of heavily ruffled flowers are superb. Brilliant in colour and particularly robust in growth, they give a splendid return to the attentions of a good garden lover. All shades are present in this mixture and they give a riot of colour when fully in flower.

1/6 EACH; 15/- PER DOZEN

SEED

BEGONIA

(TUBEROUS-ROOTED VARIETIES)

No greenhouse flower has risen more rapidly in favour in modern times than the Begonia. For a considerable time its cultivation was confined to large growers, but now large numbers of amateur growers have turned their attention to it with characteristic vigour. We have found seedlings are quite satisfactory, and in many instances are quite equal to the named varieties.

Stinton's Claremont Double Mixed: This strain represents the acme of perfection in Double Begonias. The flowers are large and beautifully double, while the brilliance and diversity of the colour are all that could be desired.

Stinton's Pendulous or Basket Type: For hanging baskets. These Begonias are of light and graceful habit, and the flowers, which are borne in great profusion, are very varied in colour and on well-grown plants produce a fine effect.

Stinton's Selected Singles: For richness of colouring, size, form and substance of petals, for habit and floriferousness, our strain is not excelled.

Stinton's Single Crested Type: The flowers are single with the petals beautifully crested, bearded and fringed.

Packets, 2/6 each

Seeds are only made up in Packets at Prices Listed

STINTON'S CLAREMONT FLOWER

Seeds.

DRAWN FROM THE WORLDS BEST SOURCES

ACHILLEA

Filipendula "Cloth of Gold": Stately perennial, large flat heads of golden yellow flowers. **Pkts. 6d.**

Millefolium Ruber: A pretty magenta red flowered perennial. **Pkts., 6d.**

ACONITUM

(Monk's Hood or Wolf's-bane)

A hardy perennial valuable for planting among shrubs, or in shady places and producing handsome spikes of flowers 3 or 4 feet tall.

Napellus: Produces spikes of dark blue flowers.

Napellus Roseus: Rosy mauve flowers.

Wilsoni: A paler blue than Napellus.

Pkts., 6d.

ACROCLINIUM

Everlasting flowers. Pretty daisy-like flowers, useful for bouquets either fresh or when dried. **Pkts., 6d.; oz., 1/6.**

ADONIS

Aestivalis (Flos Adonis): Pretty annual growing about 1 foot in height and producing freely its showy crimson flowers with dark centre. **Pkts., 6d.**

AGATHAEA

(The Blue Marguerite)

Coelestis: A pretty compact growing bush suitable for borders; height 15 to 18 inches. Bears masses of blue daisy-like flowers with bright yellow eye. **Pkts., 6d.; ½ oz., 1/-; ¼ oz., 1/6.**

AGERATUM (Floss Flower)

Very attractive and popular annual border or bedding plants, 9 to 12 inches in height. The plush-like flowers appear in dense clusters entirely covering the bush.

Blue Bedder: Clear blue, bushy and free-flowering. **Pkts., 6d.; ½ oz., 1/-.**

Blue Cap (New): The lowest growing of all the Ageratums. Very compact and a profuse bloomer. **Pkts., 1/-.**

Blue Perfection: A very fine bedding sort, compact and large flowered. Colour deep amethyst blue. **Pkts., 6d.; ½ oz., 1/-.**

Little Dorrit: Very dwarf bushes not over 6 inches high, densely covered with bright blue flowers. **Pkts., 6d.; ½ oz., 1/-.**

Mauve Beauty: A dwarf and compact variety with deep bright mauve coloured flowers. **Pkts., 6d.; ½ oz., 1/-.**

Mexicanum: This variety grows 2 feet tall and is suitable for planting as a perennial background. **Pkts., 6d.; ½ oz., 1/-.**

Swanley Blue: Dwarf compact variety producing masses of bright powder blue flowers. **Pkts., 6d.; ½ oz., 1/-.**

AQUILEGIA

This elegant genus of plants can hardly be too highly praised. They are hardy perennials and are very useful either for the border or the rock garden. For all kinds of decorative work indoors they are perfection.

New Long-spurred Hybrids: All shades and colours. Grand long spurs. This strain stands unequalled. **Pkts., 1/-; ½ oz., 4/6.**

Mrs. Scott Elliott's Long Spurred Hybrids: All the best and brightest colours; a splendid strain. **Pkts., 1/-; ½ oz., 6/3.**

AQUILEGIA "CLAREMONT" MIXED (Long Spurred)

This strain is the result of many years' selection. We have endeavoured to eliminate all washy tints from the mixture and to develop the bright rose, scarlet, blue, orange and other tones.

The lack of vivid blue shades, so often a bad feature in Aquilegia mixtures, has been surmounted by growing blues separately and blending them into the mixture after harvesting.

This new strain produces flowers of very large size with broad petals of perfect form and great length of spurs.

Packets 2/6

ASTER

"WILT-RESISTANT"

One of the largest types of Aster in existence. The immense flowers resemble massive Chrysanthemums, and are borne on long stiff stems. The seed offered is saved from selected plants only, and each variety is a leader in its class.

The most pretentious Aster improvement of recent years is the development of wilt-resistant strains. Although not novelties in the true sense of the word, we consider these wilt-resistant Asters among the noteworthy introductions of our experience in Horticulture. The Aster wilt disease is caused by a parasitic fungus, *Fusarium conglutinans* var. *callistephi*, which is carried on the seed, on cultivating implements and in the soil. The fungus persists indefinitely, and attacks any Asters which may be planted there at any time thereafter. Only through the use of resistant stocks is it possible successfully to grow Asters more than one year on the same soil. All the seed, as offered by us, is raised from GENUINE CERTIFIED WILT-RESISTANT stock, and can be relied upon to give every satisfaction.

Wilt-Resistant "Apple Blossom": One of the most beautiful of the giant branching Asters. The large well-filled flowers are of a distinct clear shade known as shell pink. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Avalanche": Very early pure white Aster; elegantly frilled flowers of the Ostrich plume type which are of perfect form and extreme lasting quality. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Amethyst": Handsome large flowers borne on long clean stems. In colour, this variety is a deep azure blue. Has extreme lasting qualities, both in the border and as a cut flower. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Blue Eagle": We present "Blue Eagle," one of the contributions to the code for better flowers. The colour is a bright navy blue, distinct from any other dark blue or purple Aster now offered, of the giant-branching "Comet" class, with large Comet-type flowers, fully double, on branching plants, suitable for cutting or garden use. The strain is very robust. Pkts., 1/-; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

Wilt-Resistant "Crimson King": Magnificent Aster of surpassing beauty, large massive flowers of bright crimson colour. For brilliancy of colour this variety is incomparable. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Electra": Superb salmon pink flowers; a novel shade of colour which is unusually effective under artificial light. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Golden Sheaf": We take pleasure in introducing "Golden Sheaf," the deepest yellow Aster yet offered, and the only one that is wilt-resistant. The flowers are fully double, with an attractive crest-like centre, of good substance and fine depth of petal. It has all the characteristics of the Aurora type of Aster. Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 10/-.

Wilt-Resistant "Peach Blossom": A fine Aster of the Mammoth Comet type, but producing even larger flowers, rich rose in colour, borne on stout stems 15 to 20 inches in length. Extremely valuable for either the garden or for large vase decoration in the home. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Peerless Pink": Large flowers of a delightful shade of rose pink. The plants are of robust type and the flowers are produced freely. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Purple Prince": The darkest Aster in cultivation; the flowers are of perfect form and are borne on long clean stems. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Salmon Queen": Immense flowers with long curved petals radiating from the centre. The clear salmon pink flowers are borne on long stems and are excellent for cutting purposes. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant "Sensation": Brilliant scarlet flowers of fine size and form. On account of its vivid colour is destined to become one of the most popular garden varieties. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

Wilt-Resistant, Finest Mixed: A well-balanced mixture of good bright and delicate colours. The flowers are large and full and of the Giant Comet type, with broad graceful petals, borne on long strong stems. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

"Aster," Giant
Wilt-Resisting

ASTER EARLY GIANT, WILT-RESISTING

A valuable new type of Aster, very large full blooms with broad, graceful petals, daintily plumed and intertwined. This variety is very early-flowering, and usually blooms at least two weeks before any other sorts.

"Mauve Queen"—Clear rich light blue. A shade which blends with either deeper or lighter tones. A most attractive variety. Packets, 1/-.

"Rose Marie"—A particularly attractive variety bearing large flowers which open almost white, flushing light pink then lavender pink as the flower fully matures. Packets, 1/-.

SUPER GIANT BRANCHING, NOT WILT-RESISTING

"El Monte"—Deep glowing crimson, composed of abundant quantities of daintily interlaced plume-like petals, the flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. It is very early blooming, coming in before the California Giant varieties, and remaining in flower over a long period. Although not wilt-resistant, we highly recommend "El Monte" to you. 1/- per Packet.

"Los Angeles"—This is the largest and most fully double Aster known. The flowers are from six inches across, fully petalled and artistically graceful in the feathery effect of the interlacing Ostrich feather type petals. The colour is a lovely soft shell pink, blending to a creamy pink in the centre. The plants reach a height of 2½ to 3 feet. For those who want the finest Aster yet developed, we heartily recommend "Los Angeles." 1/- per Packet.

ANTIRRHINUM OR SNAPDRAGON

THERE are few flowers to equal the Antirrhinums as bedding plants for spring, summer and autumn use, for they make a magnificent show in beds or borders and thrive and bloom abundantly in almost any soil or situation. They are so easy to grow, and give a wealth of bloom of the most varied and charming colours, with the minimum of attention. Antirrhinums may be had in bloom from October to late autumn. The intermediate varieties are of excellent habit for bedding and are very free-flowering. Those in the tall section are of taller habit, whilst in the Tom Thumb section the plants are dwarf and compact and wonderfully free-flowering.

GIANT MAXIMUM VARIETIES

(Tall Growing Section)

This wonderful new group of Giant Snapdragons far surpasses anything yet introduced. The flowers closely packed on full spikes are of magnificent size—invaluable for garden decoration. They are also incomparable cut flowers of exceptional quality. Height 48 to 60 inches.

- APPLE BLOSSOM**—Clear pink
Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9
- APRICOT QUEEN**—Apricot yellow lip
Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 9/-
- DEFIANCE**—Orange scarlet . . Pkts., 6d.; $\frac{1}{4}$ oz., 2/3; oz., 7/6
- ROSY GEM**—Deep rose pink . . Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 7/6
- CHOICE MIXED**—From named varieties
Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-

MAJUS GRANDIFLORUM

(Intermediate Section)

Height 36 to 48 inches

- MONARCH RE-SELECTED**—Deep velvety crimson
Pkts., 6d.; $\frac{1}{4}$ oz., 4/3; oz., 14/6
- MOONLIGHT**—Golden apricot and old rose
Pkts., 6d.; $\frac{1}{4}$ oz., 2/3; oz., 7/6
- PEACHBLOW**—Delicate peach pink
Pkts., 6d.; $\frac{1}{4}$ oz., 2/3; oz., 7/6
- PRINCE OF ORANGE**—Brilliant ensemble, gold and orange
Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- PRINCESS ELIZABETH**—Soft pink
Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- ROSE QUEEN**—Soft rose self.
Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9
- SENTINEL**—Vivid orange scarlet, white throat
Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/6
- YELLOW KING**—Deepest yellow
Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/6
- CHOICE MIXED**—From named varieties
Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9

MAJUS NANUM GRANDIFLORUM

(Semi-dwarf Section)

Height 18 to 24 inches

- DEFIANCE**—Orange scarlet
Pkts., 6d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6
- ECLIPSE**—Brilliant fiery crimson
Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9

GOLDEN QUEEN—Extra select bright golden yellow

Pkts., 6d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6

HIS EXCELLENCY—Purest scarlet

Pkts., 6d.; $\frac{1}{4}$ oz., 4/3; oz., 14/6

MAJESTIC "ORANGE KING"—Terra cotta

Pkts., 6d.; $\frac{1}{4}$ oz., 5/3; oz., 17/6

MALMAISON—Pure deep silvery pink; dark foliage

Pkts., 6d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6

MAUVE BEAUTY—Rosy mauve

Pkts., 6d.; $\frac{1}{4}$ oz., 3/6; oz., 11/6

ORANGE GLOW—Salmon orange, with orange yellow lip

Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-

ROSE ECLIPSE—Immense flowers, rose pink

Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9

"SCARLET TRIUMPH"—The perfect scarlet bedding Antirrhinum which up to date cannot be surpassed by any other variety. Compact, regular growth, large individual flowers joining to form closely set and thickly covered spikes, bright fiery colour; all these characteristics are united in this new Snapdragon Pkts., 6d.

VICTORY—Rich terra cotta orange shading to yellow in centre

Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-

"WELCOME"—The best of all crimson varieties. No purple or magenta whatsoever can be detected in the large, finely formed flowers. They are true, deep brilliant crimson

Pkts., 6d.

WHITE WONDER—Largest flowered white variety

Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-

CHOICE MIXED—From named varieties

Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9

NANUM COMPACTUM

(Tom Thumb Varieties)

Height 12 to 15 inches

- APRICOT QUEEN**—Apricot suffused rose
Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- CARMINE KING**—Deep carmine
Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- CRIMSON QUEEN**—Dark crimson, dark foliage
Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- ORANGE QUEEN**—Glowing orange, pink throat
Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- ROSE QUEEN**—Rose pink . . Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- WILD ROSE**—Brilliant pink . . Pkts., 6d.; $\frac{1}{4}$ oz., 3/-; oz., 10/-
- CHOICE MIXED**—From named varieties
Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/9

NEW RUST-PROOF ANTIRRHINUMS

A magnificent group of giant Snapdragons in rust-proof strains. The flowers are of the largest size, closely placed on stout stems of good cutting quality. Beautiful alike for garden use and cut-flower purposes.

Majus Pinkie—Soft rose pink.

Majus Crimson.

Majus White.

Majus Yellow.

Majus Choice Mixed.

Nanum California Light Salmon Pink.

Nanum California Orange Pink.

Nanum California Terra Cotta Pink.

Nanum Golden Orange.

Nanum Red Boy—Deep scarlet.

Nanum Majestic University of California Mixed.

PACKETS 1/-

SPECIAL OFFERS OF VARIETIES LISTED ON PAGE 6:

GIANT MAXIMUM—

1 Packet each variety. **5 Packets for 2/-.**

MAJUS GRANDIFLORUM—

1 Packet each variety. **9 Packets for 3/6.**

MAJUS NANUM GRANDIFLORUM—

1 Packet each variety. **14 Packets for 5/6.**

NANUM COMPACTUM—

7 Packets for 3/-.

SEEDLINGS—See Page 32.

ALYSSUM

Pretty, very sweetly scented annual plants useful for borders, edging, window boxes, hanging baskets and rock work. They flower profusely all summer and are amongst the most successful also for winter flowering.

Procumbens: Creeping habit; suitable for hanging baskets; white flowers. **Pkts., 6d.; ¼ oz., 1/-.**

Saxatile compactum: Yellow, valuable for early spring rock flowers; height 6 inches. **Pkts., 6d.; ¼ oz., 1/6.**

Lilac Queen: Good compact habit and a very pretty, deep lavender lilac in colour. **Pkts., 6d.; ¼ oz., 2/9.**

ALONSOA

(Mask Flower)

Small but numerous flowers and strikingly brilliant colours. Most continuous bloomers and very desirable annuals.

Grandiflora: Bright orange-scarlet. **Pkts., 6d.; ¼ oz., 9d.**

Warszewiczii Compacta: Foliage dark green, racemes of bright scarlet flowers. **Pkts., 6d.; ¼ oz., 1/-.**

AMARANTHUS

Whilst some are grown for their handsome plume-like flowers, the majority are cultivated for their gorgeous leaf colouring, which in late summer and autumn surpass everything for their grand effect.

Molten Fire—A new variety with bright red flame-like foliage Pkts., 6d.

Salicifolius (Fountain Plant)—Long undulated foliage; deep green marked with crimson and yellow Pkts., 6d.

Sunrise—Red foliage, golden yellow centre Pkts., 6d.

Tricolor splendens—Foliage plant, leaves rich glowing colours, scarlet-crimson marked with yellow and bronze green. Height 18 inches Pkts., 6d.

Choice Mixed—Beautiful orange, scarlet and bronze colourings Pkts., 6d.; ¼ oz., 1/-

ARCTOTIS

A free-flowering annual of unusual merit producing a wealth of large daisy-like flowers on well-branching, bushy plants.

Grandis—Attractive annual covered with pearly white marguerite-like flowers with mauve centres Pkts., 6d.; ¼ oz., 1/-

Scapigera Mixed—Brilliant golden and yellow flowers; heat-loving plants Pkts., 1/-; oz., 17/6

AUBRIETIA

This lovely spring-flowering perennial makes the garden gay during the spring months of the year. Very suitable for rock work or marginal lines of small beds, or for window boxes. Grows well from seed.

Groeca—Large-flowered; suitable for rock walls and walks; pale mauve; height 6 inches Pkts., 6d.; ¼ oz., 2/9

Rose Queen—Rosy-lilac; an improved variety bearing large flowers Pkts., 6d.

Large-flowered Hybrids, Mixed—An extremely fine strain, including many new and superb shades, and bearing very large flowers. Highly recommended Pkts., 1/-

AURICULA

(Dusty Miller)

Very old favourite perennial plants, much esteemed for their sweet-scented and exquisitely pretty trusses of flowers. They require a somewhat moist and shady situation and flower during the winter and spring months of the year.

Mixed Alpine Hybrids—Extra quality saved from the best named varieties Pkts., 1/6

BALSAM

An old favourite in the summer flower garden. The brightly coloured double flowers are very freely produced. The plants are bushy with fleshy stems and shiny bright green leaves.

Camellia-flowered Choicest Mixed—Extraordinary size, form and colours Pkts., 6d.; ¼ oz., 1/-

Double Mixed Pkts., 6d.; ¼ oz., 1/-

Giant Primrose Perfection—Another good strain Pkts., 6d.

BEGONIA

Gracilis "Enchantress"—A particularly neat-bedding variety, dwarf in habit, producing flowers a pure pink colour Pkts., 6d.

Gracilis "Fire King"—Extremely dwarf and compact in growth; colour, vivid scarlet. Foliage is dark metallic red and the plants are exceptionally hardy and floriferous Pkts., 6d. For the following varieties, see page 3.

Stinton's Claremont Tuberous Rooted Double Mixed.

Stinton's Pendulous Varieties.

Stinton's Single-crested Varieties.

Stinton's Selected Singles.

BRACHYCOME

(Swan River Daisy)

Iberidifolia—Brilliant free-flowering annual, blooming throughout the summer months, and suitable for beds or borders. The dainty flowers resemble small Cinerarias.

Pkts., 6d.; ¼ oz., 1/-; oz., 3/9

BROWALLIA

(Amethyst)

Elata Mixed—Favourite summer-blooming annuals, 18 inches in height. The flowers of unique amethyst blue and white, are very freely produced

Pkts., 6d.; ¼ oz., 1/-; oz., 2/9

CALLIOPSIS TALL GOLDEN CROWN

This outstanding novelty has been selected by American Specialists as being worthy of their Award of Merit in the All-American Trials. It is hardy and easy to grow, producing an abundance of bloom on plants about 2 feet in height. The flowers are larger than those of any other Calliopsis and of perfect symmetrical form. The colour, rich golden yellow, is made the most arresting by the contrast of a shining maroon central zoning. We recommend this novelty with every confidence and predict a demand equal to that of any introduction of recent years.

Packets, 1/-.

Carnation Double Chabaud Re-selected Strain.

Carnation Giant Double Chabaud (Re-selected Strain)—A careful re-selection of the large-flowered types in bright and distinctly coloured varieties; extremely hardy and does well under almost any ordinary garden conditions. A very desirable subject for cut-flower purposes.

FOR SEEDLINGS
CARNATION GIANT DOUBLE CHABAUD
see Page 32

Calliopsis Tall Golden Crown

Margarita Malmaison—An exceedingly popular type, blooming in a few weeks from the seed. They are of very good size and produce a large percentage of fully double flowers. A splendid mixture of colours

Pkts., 6d.; ¼ oz., 4/3

Margarita Finest Mixed—A good mixture of colours in free-blooming types

Pkts., 6d.; ¼ oz., 2/3

CALLIOPSIS

Handsome free-flowering annuals, succeeding in any soil or situation. They are very effective for bedding or massing, and if the spent flowers are cut, may be kept blooming until late autumn.

Dwarf Varieties

Nana Beauty—Golden yellow, and crimson Pkts., 6d.; ¼ oz., 1/-; oz., 2/9

Nana Dazzler—Maroon edged yellow. Pkts., 6d.; ¼ oz., 2/3; oz., 7/3

Nana Fire King—Deep scarlet Pkts., 6d.; ¼ oz., 1/9; oz., 6/-

Nana Golden Ray—Golden yellow, crimson centre Pkts., 6d.; ¼ oz., 1/-; oz., 2/9

Nana Sultan—Rich maroon crimson Pkts., 6d.

Nana Choice Mixed—A mixture of dwarf varieties Pkts., 6d.

Tall Varieties

Lemon Queen—Rich clear yellow, red blotch Pkts., 6d.

Nigra Speciosa—An extremely showy variety dark red in colour Pkts., 6d.

Tinctoria Mixed Varieties—Tall varieties mixed Pkts., 6d.; oz., 1/-

Tinctoria Double Mixed—Tall double varieties mixed Pkts., 6d.; oz., 1/-

CELOSIA

(Feathered Cockscomb)

The Feathered Cockscombs are quite distinct in form, producing tall fluffy plumes 2 feet or more in height, and are excellent material for summer beds or borders. They may also be cut and dried for winter decoration in the home.

Childsii (Chinese Woolflower)—Compact plants carrying large feathery plumes shading from pale rose and yellow to deepest crimson
Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-

Thompsoni Magnifica Mixed—Feathery plumes 3 feet in height and ranging in colour from clear yellow to deepest blood red
Pkts., 6d.; $\frac{1}{4}$ oz., 1/3; oz., 4/-

CENTAUREA

The Centaureas are among the most popular of garden annuals, both for bedding and cut flowers.

Montana Blue—Perennial Cornflower
Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/9

Imperialis Mixed—A really fine strain
Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/3

CHRYSANTHEMUM

Annual Chrysanthemums are invaluable for summer gardening. They are extremely hardy and the colours are very varied.

Cascade—A new race of perennial Chrysanthemums which flower six months from sowing of seed. It is very easily grown, and forms an admirable subject with its pendulous habit and falling cascades of flowers Pkts., 2/6

Tricolour Fine Mixed—A splendid mixture of tricolour varieties Pkts., 6d.; oz., 1/-

Clarkia Double Fine Mixed.

CLARKIA

Very free-flowering annual of easy culture, producing handsome double flowers on leafy stems and valuable for bedding, for borders and for cutting.

Chieftain—Delicate mauve . . Pkts., 6d.; oz., 1/9

Enchantress—Orange, shading to pink; a delightful variety Pkts., 6d.; oz., 2/3

Illumination (New)—Orange mingled with rose. The most beautiful of all varieties . . Pkts., 6d.

La France (New)—Salmon pink, paler edging to petals Pkts., 6d.; oz., 2/3

CLIANTHUS DAMPIERI

(Sturt's Desert Pea)

The Sturt's Pea of Australia is without a doubt the most handsome pea-shaped biennial grown. The plants are trailing in habit and the rich crimson and black flowers are borne in profusion. The seed requires to be steeped in boiling water before sowing, and should be sown direct on the spot on which the plants are to grow.

Packets, 1/-.

COBAEA

A very rapid annual climber, quickly attaining a height of 30 feet or more. The flowers are large and bell-shaped.

Scandens—Deep blue-flowered form

Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/3

Scandens alba—A white-flowered form

Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-

COCKSCOMB

Showy, sun-loving annuals, perfectly at home in the Australian summer sunshine, where their large, highly coloured crests add a gay note to innumerable gardens.

Fine Mixed—Shades of red, pink and yellow; height 18 inches

Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/3

Stinton's Special Dwarf Mixed—Plants grow about 1 foot in height, bearing immense combs in many showy colours

Pkts., 6d.; $\frac{1}{4}$ oz., 2/-; oz., 6/9

For Seedlings
"Cornflower
Jubilee Gem"
see page 32

COLEUS

(Flame Nettle)

Claremont Hybrids, Mixed—Our strain of new large-leaved hybrids produces the most highly coloured and novel foliage plants. Very showy during summer and autumn months . . . Pkts., 2/6

COREOPSIS GRANDIFLORA

"Mayfield Giant"—An easily grown perennial. Most useful for cutting. Bright yellow flowers, 3 inches in diameter

Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/3

COSMEA BIPINNATA

(Cosmos)

Very graceful tall annuals with large, long-stemmed flowers and finely cut foliage. Cosmos are invaluable in the summer and autumn garden. The plants are bushy, 5 to 8 feet high, and produce a wealth of flowers. They are very useful for backgrounds and screens, or wherever tall heavily branched flowering plants are needed.

Lady Lennox—Large single-flowering, pink
Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 1/6

Mammoth Mixed—Late, large-flowering; mixed colours Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 1/6

Orange Flare—In flower less than four months from time of planting. A mass of colour all the season. Vivid orange, free-flowering. Provides exceptional cut flowers. We highly recommend this new early-flowering Cosmos
Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 4/9

Double Early Crested—In mixture
Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 4/3

"Cornflower Jubilee Gem."

"Jubilee Gem"—"Jubilee Gem" is a dwarf variety of Cornflower, making a compact plant literally covered with flowers. It has foliage distinct from all other Cornflowers, forming a tufted mass of bright green, contrasting well with the dark but vivid double blue flowers. The plant is about 12 inches in height. Easy to grow, it is "Everyone's" flower, and is adaptable for almost any purpose to which a plant may be put. As an edging plant, a border plant, or for ground work in formal beds of Roses, etc., it will be found admirable; it is a fine cut flower, and, above all, it may be sown outside in the autumn for spring flowering, or in the spring for summer flowering, and at intervals if a continuous supply of plants is wanted 1/- per Packet

CYCLAMEN PERSICUM GIGANTEUM

The varieties listed hereunder have been specially selected for robust growth and solid structure of the plants. All may be relied upon to yield large broad flowers of clear intense colour, which open uniformly and are of perfect shape and formation.

America—Salmon scarlet orange.

Apple Blossom—Pale Pink.

Bonfire—Carmine salmon.

Cherry Ripe—Glowing red.

Monarch Crimson—Deep velvety crimson.

Monarch Excelsior—White with crimson eye.

Monarch Rose—Bright rose pink.

Monarch Royal Rose—Deep rose pink.

Monarch Salmon Pink—Clear salmon pink.

Pearl of Zehlendorff—Dark salmon.

White Wonder—The best of all whites.

Claremont Superb Mixed—A beautiful assortment of colours in large-flowering types. This strain of Cyclamen has been carefully selected to a high degree of perfection.

Papilio (The Butterfly Cyclamen)—A distinct and unique type of the large-flowered Cyclamen, which bears flowers with beautifully fringed and fimbriated petals. Makes a charming pot plant.

Packets, 2/6.

DAHLIA

Cactus Re-selected—Saved from an extensive collection of the best varieties, which generally produce some handsome new flowers, many of which are perfect show types. Mixed colours.

Charm Type Unwin's Re-selected—Invaluable for border work and garden decoration generally on account of their dwarf sturdy habit.

Collarette Mixed—The large ray florets are charmingly set off by a second series of petals of contrasting colour, such as crimson and white, yellow and red, etc., while some are beautifully striped.

Coltness Bedding Dahlia—A splendid bedding type which has been fixed to dwarf sturdy habit. Although a little variation is almost unavoidable in Dahlias this new strain may be expected to come nicely true. Available in two separate colours—carmine and crimson.

Hornsveld Giant Re-selected—A fine mixture of striking varieties.

Mignon Dwarf Single Mixed—These combine the wonderful dwarf habit and freedom of flowering of the single types, with the free-flowering propensities of the Charm Dahlia, and are a valuable acquisition to the late summer and autumn flowering plant section.

Monarch Decorative—A new strain of the double Paeony type, producing truly gigantic blooms. The flowers are well displayed, and may be cut with foliage for bold decoration in large bowls. Mixed colours.

Packets, 6d.

Miniature Paeony Flowered—A small flowered type of the Paeony Dahlia. The flowers are well displayed and may be cut with foliage for decorative purposes.

Pomponne Mixed—A distinct and pretty type. The brilliantly coloured flowers are of perfect compact shape and are most decorative both in garden border and for vases.

"Zulu"—An outstanding dwarf-growing dark-foliaged type, very suited to making massed display and border planting. The dark metallic foliage and the rich bright flowers go to make this very desirable variety one of the most attractive of our summer-flowering plants.

Packets, 1/-.

DELPHINIUM

These graceful, easily grown perennials are worthy of a prominent place in every plant border. Their tall, handsome spikes command attention, and the statuesque beauty of the plant as a whole makes it eminently suitable for planting at the back of a herbaceous border in the shrubbery, etc. The colours include all shades of blue, from azure to deep indigo. The dwarf-growing types are very charming and worthy of attention.

Dwarf Varieties

Azure Fairy—Dwarf Habit, clear sky blue

Pkts., 6d.

Blue Butterfly—A brilliant blue variety of compact habit. Excellent for small beds and as an edging to taller plants

Pkts., 6d.; ¼ oz., 2/9

Hollyhock Strain—The individual flowers are exceptionally large. The spikes are of extraordinary length, and the spike-like shape of them gives the appearance of a Hollyhock. They embrace a wide range of varied tints

Pkts., 1/-

"Claremont" Hybrid Delphiniums—"Claremont"

Delphiniums come to you acknowledging no peer. The clear-cut, massive, individual flowers are borne erect on long solid spike, often exceeding 3 feet length, of massed flower heads. The colour range is exceptionally fine, embracing all the best of Delphinium shades, ranging from delicate sky blue, rosy mauve, lustrous satin pink, cornflower blue, through dual tones and brilliant blue to rich rose purple and dark navy blue. Either for general garden decoration or exhibition purposes the "Claremont" strain cannot be excelled.

Pkts., 2/6

Belladonna Hybrids—Loosely branching sprays of pale blue flowers; height, 3 feet.

Pkts., 1/-

DIANTHUS

(Chinese or Indian Pink)

Delightfully fragrant and brilliantly coloured annual or biennial border and bedding plants. They are quite similar to the Carnation and the double sorts rival these in value as cut flowers for the home. Height 8 to 10 inches.

Heddewigii Double Mixed—Beautiful showy colours comprise this mixture.

Heddewigii Single Mixed—Flowers of good colours borne freely on dwarf plants.

Pkts., 6d.; ¼ oz., 1/-

DIDISCUS COERULEUS

(Blue Lace Flower)

A most charming annual. Flowers are a beautiful sky blue; height 18 inches.

Pkts., 6d.; ¼ oz., 1/6; oz., 5/3

DOLICHOS

Rapid climber flowering freely in erect racemes.

Lablab albus—White, quick-growing, climbing plant; suitable for covering ugly fences, etc.

Pkts., 6d.; oz., 1/-

Lablab purpureus—A bright rosy purple flowered form.

Pkts., 6d.; oz., 1/-

ESCHSCHOLTZIA

(Californian Poppy)

Only those who have used Eschscholtzias for summer bedding have any idea of the gorgeous effect produced by these plants. Although Eschscholtzias are strictly perennials, the modern practice is to grow them as annuals. From seed sown in the open ground in spring, the plants will produce a fine display of flowers during the summer months.

Special Mixed—A blending of all the latest novelties.

Pkts., 6d.

ESCHSCHOLTZIA MONARCH ART SHADES

A compact strain of large-flowering Eschscholtzia in mixture which carries its flowers well above the foliage and is ideal for bedding.

Entirely distinct from all other types, with neat feathered foliage, above which the flowers are freely produced. Semi-double, and of exquisite formation, the colours range through light rose to deep rose, and carmine, and from deep golden yellow through all the varying tones to orange and scarlet. An almost metallic sheen gives an effect of exceptional brilliance in colour and substance in flower.

Packets, 1/-.

Eschscholtzia Monarch Art Shades.

GAILLARDIA

(Blanket Flower)

Few cut flowers are so dependable during the warm summer and autumn months as these showy, large-flowered Gaillardias. They are perennial but bloom the first season from seed.

Bremen—Large coppery-scarlet flowers.

Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-

Dazzler—An intense orange-red which is exceedingly effective when cut. Plants are vigorous, stems long and wiry.

Pkts., 6d.; $\frac{1}{4}$ oz., 2/-; oz., 7/-

Hybrida Grandiflora Mixed—A mixture of all the large-flowered hybrids.

Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/-

Hybrida Monarch Strain Mixed—An exceptionally robust strain, very varied in colouring and with flowers of giant size, and perfect form. This strain of Gaillardia is very choice and is specially good for cut flowers. 1/- Per Pkt.

Lorenziana Double Mixed—Superb double-flowering strain Pkts., 6d.; $\frac{1}{4}$ oz., 1/6

Portola Hybrids—A vivid red shade tipped with gold, after the manner of the original type but the colours are brighter, clearer and the flowers immense in comparison.

Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-

GILIA

A graceful annual with feathery foliage and globular heads, excellent for cutting.

Capitata—Attractive pale mauve flowers in globular heads gracefully poised on long stems.

Pkts., 6d.; oz., 1/-

Coranopifolia—A most attractive and hardy bedding plant producing long spikes of bright rose scarlet flowers, extremely useful for either garden decoration or cut-flower purposes.

Pkts., 6d.

GOMPHRENA

(Globe Amaranth)

Hardy annual, everlasting, very useful for bouquets, erect habit, constant bloomer; very attractive.

Globosa Flesh—A delicate shade.

Globosa Purple—Deep purple.

Globosa Rosea—Bright pink.

Globosa White—Pure white.

Globosa Mixed. Packets, 6d.

GLOXINIA

One of the most beautiful flowering pot plants for the greenhouse or conservatory. Gloxinias can be flowered in the most satisfactory manner within six months of the date of sowing of the seed.

Stinton's "Claremont" Strain—This handsome strain continues to hold its high position for hardy constitution, size, substance of flowers, great variety of superb colours and fine, deep green foliage Pkts., 2/6

GODETIA

Very handsome annual plants, especially suited for semi-shaded positions. The flowers are bright and colourful and the single sorts are not unlike the Azalea in form. Popular for cutting.

Charming—A glowing deep satiny-pink. Very even in habit and extremely free-flowering.

Pkts., 6d.; oz., 3/-

Kelvedon Glory—The colour is deep glowing salmon orange, of an intensity and vividness that can be found in no other annual. The blooms are of beautiful symmetry and fine texture. Contrary to the usual characteristics of plants bearing flowers of such an exceptional colouring, their constitution is strong and robust, and their freedom of flowering unusual. We recommend "Kelvedon Glory" with every confidence and are certain that it will find a good demand from the amateur, followed by hearty commendation after it has been flowered Pkts., 6d.

Sweetheart—Double-flowering dwarf variety, flowers shining pink, overlaid cream. An exceptionally choice and attractive variety.

Pkts., 6d.

Sybil Sherwood—Dwarf compact habit, plant completely covered with bright salmon-pink flowers. The flowers are produced in profusion, causing the Azalea-like plant to completely hide its foliage beneath a canopy of bloom.

Pkts., 6d.

Flamingo—Crimson scarlet, of ideal habit; the best of the single dwarf Godetias.

Pkts., 6d.; oz., 6/-

Tall Double Mauve—2½ feet; a delicate colouring deep mauve; excellent for cutting.

Pkts., 6d.; oz., 3/9

Tall Double Mixed—All colours in splendid mixture Pkts., 6d.; oz., 2/-

Tall Single Mixed—All colours in splendid mixture Pkts., 6d.; oz., 2/-

Dwarf Special Mixed—Well blended mixture of best colours Pkts., 6d.; oz., 3/9

Hollyhock Scarlet Beauty.

HOLLYHOCK

Indispensable wherever height and colour are required in the garden. The giant stalks, with closely placed double, semi-double or single flowers are strikingly effective in groups.

Chater's Double—Extra select, an elegant and magnificent tall-growing strain giving an abundance of gorgeous double blooms literally covering the tall plants. A brilliant mixture. Pkts., 1/-

Double—Obtainable in separate shades as under:

Scarlet,
Dark Purple,
Bright Rose,

Golden Yellow,
Buff,
Lilac,
Packets, 6d.

Exquisite Mixed—Extra, flowers beautifully toothed and curled.

Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-

Annual Double Scarlet Beauty—A finely double Hollyhock of the Chater type which will flower in six months from the time the seed is sown—that is the outstanding characteristic of Annual Double Scarlet Beauty. The size of flower and plant habit are identical with the Chater Hollyhocks, but this new annual can be sown in spring for summer flowers the same year. In colour, pure intense scarlet, gorgeously headlighting the garden scene, Scarlet Beauty is the finest of what will later be a whole race of annual flowering double Hollyhocks of this type. In those sections of the country where Hollyhocks winter with difficulty, this new annual Hollyhock fills an important need, and for gardeners it will save a whole year's time in growing Pkts., 2/6

HELIANTHUS

(Sunflower)

Tall, rapidly growing plants, producing an abundance of large showy flowers. They are effective for screens, backgrounds, among shrubbery, and are useful for cutting.

Cucumerifolius (Miniature Sunflower)—Bright yellow flowers Pkts., 6d.; oz., 1/6

Cucumerifolius Excelsior Hybrids—Mixture of dark-toned varieties Pkts., 6d.; oz., 1/6

HELICHRYSUM

Everlasting flowers of great beauty, hardy and free-blooming, and very useful for cutting; grows 3 to 4 feet high.

Monstrosum Double Mixed Pkts., 6d.

HELIOTROPium

(Cherry Pie)

Choice Mixed—A selected strain of the old English Heliotrope or Cherry Pie. Includes several shades running from deep purple to pale lilac. Pkts., 6d.

HETEROPAPPUS

(Blue Daisy)

Hispidus—One of the finest plants for late summer and autumn flowering. Plants grow 2 to 2½ feet high and are literally covered with Marguerite-like flowers 1½ inches across, which greatly resemble single Asters. The colour is most desirable, silvery lavender-blue in striking contrast with the bright yellow central disc. Lasts well when cut Pkts., 6d.

HONESTY

A biennial plant of the easiest culture, usually re-seeding itself after a first planting. It grows 18 inches high, has purple flowers and is especially interesting when dried. The diaphanous inner linings of the seed pods, after hulls are removed, present a very decorative effect Pkts., 6d.

IMPATIENS

Charming free-flowering perennials for bedding, semi-shade or for pot culture.

Holstii Hybrids—A mixture of a wonderful range of colours Pkts., 1/-

IPOMOEA

(Morning Glory)

Leari—Indispensable for covering fences, sheds, etc. A vigorous climbing plant bearing bright blue flowers Pkts., 1/-

IPOMOPSIS

Graceful and very showy biennials, withstanding heat well, and only requiring to be better known and appreciated.

Elegans or Picta Mixed—Free-flowering annual plants; mixed colours; good for massing.

Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/3

JACOBÆA

Closely resembling a pom-pone Chrysanthemum in form, and also in range of colours, which includes rose, copper, magenta, red, etc. Flowers freely.

Elegans Double Choice Mixed Pkts., 1/-

KOCHIA

(Summer Cypress)

Tricophylla—A rapid-growing annual of graceful habit with finely cut green foliage which changes to a rich russet crimson in the autumn. Pkts., 6d.

LATHYRUS PUBESCENS

(The Blue Perennial Pea)

A rapid-growing climbing plant which bears masses of Wistaria-blue flowers. Very hardy and useful for cutting purposes.

Packets, 6d.

LUPINUS

Russell Lupins.

LARKSPUR

CLAREMONT GIANT IMPERIAL STRAIN

This strain is a noteworthy improvement on the older strains and few annuals equal them for usefulness and charm. The plants are heavily branched, grow to a height of 3 feet or more, and produce a continuous succession of bloom from early summer until fall. Invaluable for summer bedding and border planting, they are also one of the most dependable sources of cut flowers over a period of months.

Blue Bell—Medium blue.
Blue Spire—Deep blue.
Carmine King—Deep carmine rose.
Dazzler—Rich rosy scarlet; intense colour.
Los Angeles Improved—Brilliant salmon pink.

Rosamond—Pure bright rose.
Sweet Lavender—Rich lilac blue.
Art Shades Mixed—A complete mixture of new choice art shades.
 oz., 2/9

Packets, 6d.

LEPTOSIPHON

Useful for rock gardens and for edgings.

French Hybrids—Plants thickly studded with charming flowers of various bright colours Pkts., 6d.; ¼ oz., 1/-; oz., 3/-

LIMNANTHES

Douglasi—Free-flowering and delicately fragrant hardy annual; valuable for showy borders and beds; height 6 inches . Pkts., 6d.; ¼ oz., 1/-; oz., 2/3

LOBELIA

The varieties of Lobelia we offer are dwarf, compact plants 4 to 6 inches high, or trailing sorts used for baskets, urns, etc. They are remarkably free-flowering, blooming continually from October to April.

Crystal Palace Compacta—Rich deep blue of erect bushy habit. Leaves deep bronzy-green. Ideal for edging, bedding and ribbon borders.

Mrs. Clibran Improved—Deep blue; clear white eye. Very compact.

Hybrida Pendula "Sapphire"—Sapphire blue, white eye. Particularly adapted for hanging baskets Pkts., 1/-

LINUM

(Flax)

Grandiflorum Rubrum—A brilliant and attractive annual of long duration. Sown in permanent location in autumn for early spring bloom, or in spring for summer blooming. Flowers scarlet, abundantly produced Pkts., 6d.

Perenne (Perennial Flax)—Bright blue Pkts., 6d.; oz., 2/-

THE annual Lupins are easily grown, free-flowering plants, 2 to 3 feet high, useful for beds, borders and for cutting. The perennial varieties rank amongst the most useful and attractive of our herbaceous plants and a space should be found for them in every garden. While they seem to prefer a little shade, they are very easy to grow in any ordinary soil or situation.

Annual Varieties—
Giant Blue.
Hartwegi Blue.

Giant Rose.
Hartwegi Rose.
 Packets, 6d.

Giant Mixed.
Hartwegi Mixed.

Perennial Varieties—

Blue King—Deep clear blue.
Buff Shades—Beautiful orange pink and buff shades.
Lavender Queen—Lavender, tinged rose.
Luteus—Clear yellow, long spikes of good form.
Pink Pearl—Rose pink.
Perennial Mixed—An excellent mixture of good bright colours.
 Packets, 6d.

"Claremont" Imperial Hybrids Finest Mixed—This strain, without a doubt, is the finest yet offered, and will prove to be a decided acquisition to any garden. Tall growing and elegant in appearance, the plants show off their massive heads of flower to perfection. The extensive colour range embraces red, purple, pink, buff, yellow, lavender, white and various shades incidental to these colours, together with some very fine two-toned effects. Robust in growth and sweetly perfumed.

Packets, 1/6.

Russell Lupins Mixed—This outstanding variety of Perennial Lupin has proved itself under Australian conditions and is well worthy of its place in every garden. The long, closely furnished spikes, flower in a great variety of rich colours—deep yellows, oranges, reds and brilliant bi-colours, never seen in Lupins before. The florets are large, with flat, fan-like back standards, and unlike all other Lupins, most of the spikes retain their florets throughout the whole period of development.

Packets, 1/6.

Marigold Dwarf French Double Harmony

MARIGOLDS

FRENCH DWARF

ELECTRIC LIGHT—Flowers, double yellow, spotted brown; extremely dwarf and very suited to ribbon bordering or the edging of beds.

GOLDEN BALL—Golden orange double-flowers; makes a splendid border or bedding plant Pkts., 6d.; ¼ oz., 1/-; oz., 3/3

GOLD STRIPED—A superb strain of Scotch origin. Double deep velvety flowers striped gold Pkts., 6d.

"HARMONY"—"Harmony" is without question one of the very finest Marigolds ever introduced. It is in all respects outstanding. Dwarf, compact plants, exceedingly free flowering and extremely early. The flowers are distinct Scabiosa-like in formation, with tubular deep orange centre petals flanked by bright, velvety, dark maroon guard petals. Pkts., 1/-

ROYAL SCOT description, page 13. Height, 12 to 18 inches. Pkts., 6d.

DOUBLE MIXED—A very compact strain comprising a wide range of colours, bronze, yellow and mahogany. Pkts., 6d.; ¼ oz., 1/-; oz., 2/3

MARIGOLDS

THE African and French Marigolds enjoy a well deserved popularity. They form excellent material for mixed borders, and offer an endless supply of splendid cut flowers. The diversity of orange and yellow shades in which they abound permits of most effective contrast in decoration if combined with blues and purples of Larkspur, Cornflower, etc.

AFRICAN TYPE

GIANT SHOW LEMON—Giant double-flowered clear lemon-yellow.

GIANT SHOW ORANGE—Extra large, fully double bright orange.

CHOICEST DOUBLE MIXED—Contains many shades of orange and yellow.
Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-.

Marigold Collarette "Crown of Gold"

COLLARETTE "CROWN OF GOLD"—Its main claim to glory is the fact that there is absolutely no trace of the characteristic Marigold odour in the foliage, stems or flowers. It is the first of what will undoubtedly be a new race of completely odourless Marigolds. The flowers, which are of medium size, are a lovely golden orange shade with a full crested centre of small tubular petals, surrounded by a single row of broad guard petals. "Crown of Gold" is valuable as a cut flower variety, primarily where it will be a boon to those who do not like or are sickened by the pungent Marigold scent.

1/6 Per Packet

"DIXIE SUNSHINE"—From the land of Dixie to the gardens of the world comes this most modern, most charming and unique Marigold. "Dixie Sunshine" is a ray of dazzling pure beauty. The large ball-shaped flowers are ingeniously composed of dozens of tiny five-petalled florets, gracefully interlocking, daintily fringed in effect. Brilliant golden yellow, 100 per cent. fully double, and but faintly scented with the characteristic Marigold odour. 1/- Per Packet

"YELLOW SUPREME"—Heralded as a companion to the popular Guinea Gold, "Yellow Supreme" does in many respects resemble it. Like Guinea Gold, it is very free flowering, compact and somewhat pyramidal in habit, 2 to 2½ feet tall, bearing loosely ruffled, carnation flowered blossoms. The colour is a light lemon yellow, and the flowers are somewhat larger than Guinea Gold. The characteristic Marigold odour is almost entirely lacking, adding greatly to its usefulness for cutting and garden use 1/- Per Packet

GUINEA GOLD (Reselected)—This is a very distinct type of Tagetes, of graceful pyramidal habit, growing 2½ to 3 feet high, and producing 30 to 40 flowers to the plant, 2 to 2½ inches across, of a brilliant shade of orange flushed with gold. Unlike the ordinary African Tagetes, this new variety produces no single flowers, but practically 100 per cent. semi-double and double flowers. Do not fail to make at least a nominal planting of this valuable novelty, both for early and later summer bloom, as well as recommend same to your home garden friends. Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/9

FRENCH TALL

GIANT TREE FRENCH (Australian Tree)—This already well-known Marigold fills an important place in the garden. The plants are tall and graceful and the flowers are borne in profusion through the late autumn and winter months. **Note:** In order to obtain this subject for winter flowering it is necessary to delay planting the seedlings until January Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 3/3

GOLD STRIPED—A superb strain of Scotch origin. Double deep velvety flowers, striped gold, 24 to 30 inches Pkts., 6d.

ROYAL SCOT—The large, well-formed, double flowers are produced in abundance on plants from 24 to 30 inches in height. The colour is a charming combination of mahogany and gold in symmetrical stripes which radiate from the centre of the flower.

Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 4/9

Marigold Gigantea Sunset Giants

GIGANTEA SUNSET GIANTS—A prominent horticulturist has said that a flower to be desirable in the home garden must have one or more of three outstanding characteristics: it must be very showy, or fragrant, or of exceptional size. Marigold Sunset Giants has the happy combination of all three of these characteristics. Not only are the flowers the largest ever known in the Marigold group, averaging 5 inches and some flowers attaining a size of 7½ inches, but they are produced in such profusion that a plant of Sunset Giants is one of the showiest spots in the garden. But most remarkable, instead of the usual Marigold odour these flowers have a definitely sweet fragrance, a fact which will undoubtedly place them among the outstanding novelties of the season. The flowers are loosely formed, very full centred, with broad, heavy petals gracefully overlapping to make a flower of great depth and even larger than Dahlia Flowered Zinnias. Sunset Giants is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent. double. 1/6 Per Packet

CRISP LEAVED NASTURTIUMS

FOR colour, length of bloom, ease of culture and general usefulness in the flower garden, the Nasturtium has no equal. Where winters are mild the Nasturtium can be sown practically any time and within a few weeks the brilliantly coloured flowers begin to appear, continuing in bloom the entire season. They are usually sown where they are to bloom, and the seed is covered about 1 inch with soil.

DOUBLE SWEET SCENTED VARIETIES

FIRE GLEAM—A new bright scarlet, the sweet-scented flowers are fully double and are borne in great profusion. Plant growth resembles that of "Golden Gleam" but rather more compact.

GOLDEN GLEAM—One of the most popular novelties introduced in recent years. The large golden-yellow double flowers are borne on erect stems 6 inches high.

"GOLDEN GLOBE"—Of all the novelties of latter years, the double Nasturtium "Golden Gleam" quickly became the most popular and the common property of both professional and amateur gardeners. Since the climbing plants of Nasturtium "Golden Gleam" are not suitable for all purposes, especially not in restricted spaces, Nasturtium "Golden Globe" should be very welcome. It has the same habits as its famous predecessors, but forms round shapely bushes covered with masses of bright sweet-smelling, golden-yellow double blooms. In our opinion it is the best double variety and a remarkable improvement on "Golden Gleam."

MAHOGANY—Probably the largest flowered of the Double Nasturtiums. As the name denotes, the flowers are dark mahogany red, but have such a velvety brilliancy that none of the dullness so often associated with dark coloured flowers will be found in this variety. The immense flowers are borne with the greatest freedom on long, stiff stems well above the foliage of the semi-dwarf plants. The sweet scent is equal to any other variety.

ORANGE GLEAM—Deep glowing golden orange with a deeper shading at the centre. Large sweetly-perfumed flowers borne in profusion on clean strong stems.

SALMON GLEAM—Delicate golden-salmon, semi-double flowers of medium size; sweet-scented. A most attractive colour and very floriferous.

SCARLET GLEAM—Those who have seen Scarlet Gleam enthusiastically proclaim it even more dazzling in colour than the showy Golden Gleam. The flowers are a fiery orange-scarlet of extraordinary brilliancy. The individual blooms are of an immense size, almost 3 inches across, much larger than any Nasturtium known. The sweet fragrance is more pronounced and the double flowers more uniformly well formed. The large, fiery scarlet flowers held well above the cool restful green leaves present an arresting contrast, while the ease with which the plant is grown under almost any condition ensures a universal popularity.

SUN GLEAM—The most sweetly-scented of all the Double Nasturtiums. The colour of the large flowers is a brilliant lemon-yellow—a soft, soothing shade that blends well with so many different colours. It is exceptionally floriferous, the exquisitely formed flowers being carried on long stiff stems well above the foliage. Plants are of the same semi-dwarf growth as Golden Gleam.

SUPREME—An outstanding fine Double sweet-scented Nasturtium, the colour of which is a marvellous shade of salmon-cerise. The gorgeous flowers are extra large, of good substance, and are borne profusely on long, strong stems well above the rich green foliage which further accentuates their beauty. The delightfully sweet fragrance of the blooms is quite pronounced. Wonderful colour for cutting.

DOUBLE GLEAM HYBRIDS—This mixture is composed of an evenly balanced range of cheerful colours on dwarf, compact plants. The goodly-sized sweet-scented double flowers gaily cover the plants in an excellent colour range which includes shades of yellow, orange, scarlet, crimson, salmon, cerise, cream, maroon and spotted varieties. While a majority of the plants have light foliage, there are a good many dark-leaved plants as well.

DOUBLE DWARF GEM MIXED—An unusually colourful mixture of dwarf hybrids. The plants are compact in growth and are well rounded in shape. The gorgeous, giant-sized double and semi-double blooms are produced with great freedom on very long stems and are lovely for cutting.

Nasturtiums.

SPECIAL OFFER

One Packet each of new Nasturtiums
(Eleven Packets in all)

For 4/6

SINGLE VARIETIES

LILLIPUT MIXED—A distinct race of Dwarf Nasturtium remarkable for its profusion of brilliant flowers which are thrown well above the small foliage. Neat, compact habit.

TALL OR CLIMBING MIXED—A choice mixture of the very beautiful and popular tall-growing single flowering Nasturtium.

TOM THUMB SINGLE MIXED—A combination of dwarf varieties produces a grand display in a large bed.

Packets, 6d.

MATTHIOLA

(Night Scented Stock)

Bicornis—A delightful free flowering annual 6 inches in height. Flowers are purple, not very showy, but are noted for their entrancing fragrance emitted during the evening.

Pkts., 6d.

MESEMBRYANTHEMUM

Criniflorum

(Livingstone Daisy)

Absolutely hardy and one of the most easily grown annuals. Plants, of slightly spreading habit, literally covered with flowers, measuring about one inch. There are pure whites tinted and edged with rose, crimson pink and buff, and self colours, including primrose, golden, buff, apricot, crimson and pink. Ideal carpet or rockery plant. Pkts., 1/-

MIMULUS

(Monkey Flower)

A class of magnificent dwarf hardy perennials which flower profusely and have a brilliant effect in beds and borders. The plants thrive in moist situations.

Fine Mixed—A fine mixture of various colours.

Pkts., 6d.

Tigrinus—Fine spotted and blotched flowers with yellow ground. Height 9 inches. . . Pkts., 6d.

MINA LOBATA

Beautiful annual climber. It produces freely long spikes of handsome bright red and yellow flowers. Pkts., 6d.

NEPETA

(Catmint)

Mussini—This hardy rockery or border plant produces lavender-coloured flowers profusely; silvery-grey foliage; dwarf. Pkts., 1/-

NICOTIANA

(Tuberose Flowered Tobacco)

Hybrids Reselected—Free flowering annuals with deliciously scented tubular flowers. Brilliant colours including a large proportion of pink and rich red shades as well as pure white. A very showy large flowered strain. . . Pkts., 6d.

NIGELLA

(Love-in-the-Mist)

Compact free-flowering annuals with finely cut foliage and curiously formed flowers and seed pods.

Miss Jekyll—Rich blue, fine foliage.

Pkts., 6d.; oz., 1/-

PENTSTEMON

"Claremont" Monarch Strain—Visitors to our Nurseries during recent years have warmly appreciated the displays of our various lines in flower at different seasons of the year. Our "Claremont" Monarch Pentstemons have always had considerable attention drawn to them. The plants reach about 18 inches to 2 feet high and are covered with blooms, giving a riot of colour, embracing every hue known to the Pentstemon to-day. Very hardy in growth and free flowering. Pkts., 1/6

PORTULACA

(Sun Plant or Moss Rose)

A well-known and most useful plant for covering dry, barren soils. The plants are extremely bright and vary from white, pale-rose, and yellow, to dazzling scarlet, orange, purple and dark red.

Grandiflora Double Mixed . . Pkts., 6d.; $\frac{1}{2}$ oz., 3/3

Grandiflora Single Mixed . . Pkts., 6d.; $\frac{1}{2}$ oz., 1/-

PYRETHRUM

Perennials—large Marguerite flowers and fine fern-like foliage. Graceful and long-lasting cut flowers.

Aureum (Exhibition Border)—Suitable for small borders; golden foliage.

Pkts., 6d.; $\frac{1}{2}$ oz., 1/-; oz., 2/3

Hybridum, Single Mixed—An excellent perennial for cutting; bright shades and large flowers. Height 2 feet. . . Pkts., 1/-; $\frac{1}{2}$ oz., 2/6; oz., 8/3

RHODANTHE

(Swan River Everlasting)

Mixed—A splendid mixture of colours ranging from pure white to deep cerise. . . . Pkts., 6d.

RICINUS

(Castor Oil Plant)

Zanzibariensis—Very large leaves. The plants grow to great size and appear in various shades of red and bronze green. . . . Pkts., 6d.

RUDBECKIA

Kelvedon Star—A perfect flower for cutting, a sturdy and floriferous plant for bedding. The flowers vary both in form and colouring, but all have dark brown central discs, surrounded by shining mahogany zones, on petals of deep orange. 6d. Per Packet

STREPTOCARPUS

A highly decorative plant, easily grown. Seed sown in September and October produces plants which come into bloom during the following March and April.

Stinton's Giant Hybrids—A magnificent strain of continuous free-flowering hybrid Streptocarpus. The flowers are two or three times the size of the ordinary strains. Pkts., 3/6

SALPIGLOSSIS

Sun-loving, velvet petalled annual; 2 $\frac{1}{2}$ feet high. The richly coloured, trumpet shaped flowers are produced in the greatest profusion; magnificent for summer bedding in sunny locations.

Superbissima Emperor—A wonderful strain, including all the largest, brightest flowers.

Pkts., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 5/3

Grandiflora, Fine Mixed—Gorgeous shaded flowers.

Pkts., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 4/6

Nana Dwarf Mixed—A dwarf growing strain of the Superbissima type; good range of colour, very compact type. . . . Pkts., 6d.

SUNFLOWER

(See also Helianthus)

Stinton's Large-flowered—In splendid mixture. . . Pkts., 6d.

Stinton's New Red—A highly selected stock of the original Chestnut-red Sunflower. Splendid for the back of wide borders or in isolated beds on lawns.

Pkts., 6d.

Physalis Franchetti Gigantea.

PHYSALIS FRANCHETTI GIGANTEA

A most outstanding introduction which we recommend to our customers with every confidence.

The attractive orange-scarlet balloon seed pods are of the same colour as the well-known Franchetti but twice as large.

We are certain that this new form will find favour with Market Growers and with all lovers of this very fine winter decorative subject.

It has the robustness of the type; is perfectly hardy and will succeed well under almost any growing conditions.

Packets, 1/6

Petunia Ruffled Giants of California (Reselected).

PETUNIAS

THE Petunias make a charming display in the garden. The colours are bright and varied, and the plants flower over a long period. Lovers of bright, clear sunshine and dry atmospheric conditions, it naturally follows the plants yield of their best in the clear Australian sunlight.

RUFFLED GIANTS OF CALIFORNIA (Reselected)—An unrivalled strain of extra large heavily ruffled and fluted flowers in the greatest variety of colours; a distinct yellow throat often marked and veined lends greater depth to this marvellous strain. The colours cover a surprising range of brilliant shades and the plants remain in full bloom from early summer until late fall.

Packets, 2/6.

BALCONY VARIETIES

These varieties are particularly adapted to planting in window boxes or on positions where they can use their trailing propensities to the best advantage.

BLACK PRINCE—Deep velvety red.

CORNFLOWER BLUE—Rich clear blue.

ROSE—Clear rose, golden throat.

Packets, 1/-.

BEDDING VARIETIES

ALDERMAN—Rich violet colour; excellent for small beds and borders. Pkts., 6d.

FLAMING VELVET—Deep velvety crimson; a very special strain. Pkts., 1/-

HEAVENLY BLUE—Clear light blue. Pkts., 1/-

ROSE OF HEAVEN—Bright rose, a charming colour for bedding and free-flowering; one of the best. Pkts., 6d.

TOPAZ ROSE—Fiery velvety rose. Pkts., 1/-

BORDER, MIXED—A well-blended mixture of the bedding type. Pkts., 6d.

DWARF STRIPED AND BLOTCHED—An excellent Petunia for massing in beds and borders, yielding a large number of brightly marked striped single flowers Pkts., 6d.

STINTON'S NEW DWARF—The variety is extra compact in growth and is an admirable addition to the bedding and border plants. Plants flower over a long period, giving a profusion of brilliantly coloured blooms. Pkts., 1/-

Petunia Grandiflora Choice Mixed.

PETUNIA GRANDIFLORA DOUBLE CHOICE MIXED

—This is a mixture of the best large flowering and fringed double Petunias. Of course only a certain percentage of double flowers may be expected from seed, but our mixture will produce from 60 to 80 per cent. of doubles, while the remainder will be choice, large single flowers. The weaker seedlings should be carefully saved, as those invariably produce the finest double flowers.

Packets, 2/6.

For Seedlings See Page 32.

Natural Flower Garden Mixture.

PHLOX DRUMMONDII GRANDIFLORA

STINTON'S "CLAREMONT" STRAINS

PHLOX are among the most charming of our summer and autumn flowering annuals, and they thrive best in a dry climate and a sunny situation. Large beds of Phlox make an amazing show of wonderful colours, and they cannot be grown too freely in any garden. We pay the greatest attention to our "Claremont" strain of Phlox and the displays seen at our "Claremont" Nurseries invariably call forth much comment and praise from visitors. The mixture includes only the brightest and most wanted shades, and the largest flowered varieties.

BUFF BEAUTY—A lovely colour, quite distinct from the ordinary Phlox colours, being a unique shade of buff yellow self.

CRIMSON BEDDER—It is the reddest and the most richly coloured Phlox we know. The flowers are large, of perfect form, and are marked with a conspicuous dark blotch in the throat.

DAINTY MAID—Large trusses delicate flesh pink flowers.

FIRE KING—The colour is vivid scarlet, and the large flowers make a brilliant show of colour.

LAVENDER LADY—Rosy Lilac with clear white eye,

MAYFAIR—Well formed flowers produced in large heads; colour, delicate rose pink.

PURPLE PRINCE—Large handsome flowers of deep purple colour.

Packets, 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-.

SPECIAL OFFER
1 Packet each Variety Phlox
14 Packets for . . 5/6

Salvia Blaze of Fire.

KEY TO VARIETIES

Shown in Colour Block on front cover

1. SNOWDRIFT
2. QUEEN OF SHEBA
3. ROMANY LASS
4. DAINY MAID
5. LAVENDER LADY
6. MAYFAIR
7. FIRE KING
8. QUEEN OF THE ROSES
9. SCARLET PRINCE
10. BUFF BEAUTY
11. PURPLE PRINCE
12. ROSALIE

QUEEN OF THE ROSES—A very large flowered strain of Phlox, producing charming salmon pink flowers.

QUEEN OF SHEBA—Dark reddish purple.

ROMANY LASS—Bright crimson with rosy-white eye.

ROSALIE—Very striking shade of bright rose pink, with clear white centre.

SCARLET PRINCE—Bright glowing scarlet, one of the best for massed effect.

SNOWDRIFT—Pure glistening white.

STINTON'S "CLAREMONT" SELECTION of Brightest Colours, Mixed—The largest flowered types and the most brilliant colours comprise this mixture.

STINTON'S STAR PHLOX

An improved strain of the fringed Phlox. Extremely useful for cutting and especially valuable for table decoration. Mixed colours. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 4/6

GRANDIFLORA "CLAREMONT" DWARF COMPACT

Valuable class of annual Phlox. The colours are striking, the habit compact and dwarf, the plants frequently attaining only 4 to 6 inches in height, forming masses of flower heads from 9 to 10 inches across. Strongly recommended for beds, edgings or borders; available in the following colours:

Apricot.	Dark Blue.
Chamois Rose.	Deep Crimson.
Cinnabar Scarlet.	Salmon Rose.
Choice Mixture.	

Packets, 1/-; $\frac{1}{4}$ oz., 4/3; oz., 14/6.

SALVIA

Brilliant subjects for summer bedding and border plants, flowering freely throughout the season.

BONFIRE—Brilliant scarlet; annual. . . . Pkts., 6d.; $\frac{1}{4}$ oz., 2/9

FARINACEA—Perennial; lovely spikes of pale blue flowers. Pkts., 6d.; $\frac{1}{4}$ oz., 2/9; oz., 9/-.

PATENS—Pure bright blue flowers; perennial. . . . Pkts., 2/6

SALVIA SPLENDENS COMPACTA

"BLAZE OF FIRE"

Without query the earliest and the most dwarf of all the scarlet Salvias, blooming ten to fourteen days before any other variety.

The flowers are the most brilliant and vivid scarlet imaginable, and the habit is ideal for bedding.

We recommend "Blaze of Fire" to our customers with every confidence, for we are sure of its merit and the fact that it will quickly become one of the most popular of all bedding plants.

Packets, 2/6.

URSINIA ANETHOIDES

(Jewels of the Veldt)

Brilliant flowered daisy-like annual from the Cape. The dwarf plants are furnished with finely cut foliage, above which rise the brilliant flowers which are borne in profusion. The colours range from yellow to deep orange. The plants should be grown on a sunny position and when in flower will win a great deal of admiration. Pkts., 6d.

VALERIAN

Perennial herbs with strong smelling roots and heads of small variously-coloured flowers.

Crimson—

Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 3/-.

Mixed—

Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 2/3

VERBENA

Splendid selections with individual flowers of surprisingly large size and exquisite colours. The plants are unusually vigorous and the immense flower trusses very freely produced.

Hybrida Mammoth "Crimson Glow"—Glowing crimson.

Hybrida Mammoth "Ellen Willmott"—Large flowered rose.

Hybrida Mammoth "Lavender Glory"—Deep lavender, white eye.

Hybrida Mammoth "Luminosa"—Orange pink shading to salmon.

Hybrida Mammoth "Royale"—Deep royal blue.

Claremont Mixture—A large flowered mixture, specially blended from named sorts. A well-balanced assortment of all the best and brightest colours.

Packets, 6d.

Viscaria "Blue Pearl."

VENIDIUM

Fastuosum Hybrids—A new plant from South Africa; very striking and showy in appearance. Foliage grey-green and feathery. The large orange-yellow flowers are freely produced on vigorous spreading plants about 2 feet in height. Pkts., 6d.

VISCARIA

Colourful and free-flowering annuals for borders, beds, etc.; 12 inches high. Make a beautiful display when planted in masses.

"Blue Pearl"—Aptly named, this new Viscaria is so pure and delicate in colour that it calls to mind immediately that particular refinement which makes the pearl so attractive. The plant is free-flowering and has the advantage of being more tidy and erect in habit than the average Viscaria. The colour, pure lavender blue, is outstanding and differs from the other blue Viscarias to a degree which makes it absolutely distinct; the lack of "eye" which is a common character of most sorts, adds considerably to its distinction. Viscarias are becoming extremely popular, and some of the outstanding bedding effects we have seen this year have resulted from broadcast sowings which make a very attractive effect en masse Pkts., 1/-

Tom Thumb Fire King—Gorgeous scarlet flowers. Pkts., 1/-; $\frac{1}{4}$ oz., 3/3; oz., 10/6.

Tom Thumb Loyalty—A fine bright blue. Pkts., 1/-; $\frac{1}{4}$ oz., 3/3; oz., 10/6.

Mixed—Extremely pretty mixture. Pkts., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/3.

WHITLAVIA

A beautiful hardy annual with Gloxinia-like flowers.

Gloxinoides—Rich blue, white throat.

Pkts., 6d.

Grandiflora

—Violet blue; 1 foot. Pkts., 6d.

GOURDS

(ORNAMENTAL)

Gourd Small Varieties Mixed.

STINTON'S SPECIAL MIXED

All shapes and sizes of these interesting fruits so fashionable for ornaments are included in this mixture. Gourds are growing popular for use in Winter Decoration. Easily grown in any good garden loam as you would squash, or other Vine crops; or may be trained on trellises, fences, stone walls or arbors.

Packets, 6d.

Tithonia Speciosa "Fireball"
TITHONIA

(Golden Flower of the Incas)

Speciosa—Tall-growing, hardy plant with rich orange-red flowers of a very telling colour. Eminently suited for cutting purposes Pkts., 6d.

"Fireball"—Dazzling as a ball of fire poised high above other flowers. "Fireball" is, undoubtedly, the last word in brilliance of colour in a full blooming plant. "Fireball" is a very brilliant, vibrant shade of scarlet orange, the petals in dazzling contrast to the clear yellow centre. It is extremely showy in the garden and an excellent new cut-flower variety, as the flowers will keep five or six days when cut Pkts., 1/-

ZINNIAS

Stinton's Famous "Gold Medal"

FEW flowers have exhibited greater improvement at the hands of hybridisers than the Zinnias, and their improvement has been matched with a corresponding increase in public favour. For those getting started with Zinnias, it should be emphasized that the nature of the plants demands plenty of warmth. This is explained by the fact they are native to Mexico.

Stinton's Giant Dahlia-Flowered Varieties: Immense double flowers of gorgeous colouring, free blooming and lasting.

CANARY BIRD—Rich canary yellow.

CRIMSON MONARCH—Deep crimson, flowers very large.

DESERT GOLD—This variety contains the light and deep hues of gold, each petal overlaid at the base with a deeper golden yellow, giving a charming bi-colour combination. Those who appreciate the finest in Zinnias will welcome "Desert Gold."

DREAM—Deep lavender.

EXQUISITE—Light rose, deep rose centre.

FLASHLIGHT—We have had many inquiries recently for a pure golden yellow Zinnia, and now have pleasure in offering this shade in the new variety "Flashlight." A very bright coloured and desirable variety, the flowers are of perfect shape and the colour a very telling one for separate beds.

METEOR—Very brilliant crimson, the deepest of all reds.

NIGHTBIRD—A beautiful violet flowered Zinnia. The shade is one which has been lacking in the Zinnia and we have the utmost faith in its flowering qualities. The colour deepens towards the centre of the flower, which is fully up to 5 or 6 inches in diameter.

OLD GOLD—Deep and lighter shades of old gold.

POLAR BEAR—Large pure white.

STINTON'S BRIGHTNESS—In this remarkable variety, the flowers are deep rose, closely approaching crimson, and of a glistening brightness not seen in any other variety of the Zinnias; under artificial light, the blooms are a bright rosy scarlet, and are unsurpassed for decorative purposes. The plants are very robust and free flowering.

STINTON'S FIREBALL—Another new variety of great merit, the colour being a bright vivid scarlet. The flowers are of immense size and are produced in the greatest abundance. The plants grow freely, and although they attain large proportions, are graceful and beautiful.

STINTON'S GIANT DAHLIA FLOWERED, GOLD MEDAL MIXTURE—This mixture embraces all the most brilliant and largest flowered varieties of this magnificent type of Zinnia, and for either garden decoration or cut flower purposes, the strain is unexcelled.

Packets, 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-.

SPECIAL OFFER
Gold Medal Strain
1 Packet of each Variety
13 Packets for . . 5/6

For Seedlings See Page 32.

GIANT DOUBLE MAMMOTH GIANTS OF CALIFORNIA—A very robust strain with enormous flowers. The plants are taller than the Dahlia-flowered type, growing 3 to 4 feet high, with long stems which adapt it particularly for use as a cut flower. The flowers are very large and flat, giving a graceful effect.

GOLDEN CROWN—Golden Yellow.

GOLDEN MEASURE—Clear buttercup yellow.

INNOCENCE—Pure white.

LILAC TIME—Lavender turning purple.

MERCURY—Glowing scarlet.

PURPLE PRINCE—Deep purple.

QUEEN OF THE ROSES—Bright rose.

ROSELANDIA—Beautiful cerise rose.

SALAMANDA—Salmon rose.

SUNRISE—Bright deep rose.

SUNSET—Burnt orange.

VALENCIA—Golden yellow.

CLAREMONT MIXTURE—Even blend of the choicest colours; only the best varieties have been used in this mixture.

Packets, 6d. each.

SPECIAL OFFER
Giant Double Mammoth Giants of California
1 Packet of each Variety
13 Packets for . . 5/6

ZINNIA LINEARIS.

The most unusual and interesting of Zinnias is the little dwarf variety "Linearis." The flowers, which are single, are a lovely shade of golden orange, with a delicate lemon yellow stripe through each petal, while the centre is dark brown in the young flowers, turning golden orange as the flower develops. The plants commence to flower when 6 inches tall and keep on right through the season until the late frosts of autumn. Excellent for window boxes or in any part of the garden where a dwarf growing plant with brilliant colouring is desired. **Packets, 1/-**

PASTEL MIXTURE.

Because of the neat, compact, symmetrical habit of the flowers, together with their small size and length of stem, these Zinnias are particularly fine for cutting for bouquets in the home. When we are thinking of flowers for cutting our minds automatically turn to the pastel shades. Until this past season there has been no strictly pastel variety in the Lilliput type. In the pastel mixture however, have been incorporated the very lovely soft shades of apricot peach, creamy yellow, shell pink, delicate salmon, light rose and orchid, which are prime favourites with florists and cut flower growers. The plants are 12 to 15 inches in height. Neat in habit, compact growing and very free flowering. It is one of the early blooming types producing flowers about 45 days after the seed is sown **Packets, 1/-**

"Zinnia Linearis".

CROWN OF GOLD MIXTURE.

This aristocrat among Zinnias retains its place as an outstanding novelty. Each petal of the flower is overlaid with deep golden yellow at the base, while carrying out the individual flower colour at the tip.

Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-

STINTON'S FANTASY MIXED.

The rounded flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance to the medium-sized double flowers. The colour range includes the brightest shades of reds and orange, as well as the popular pastel pinks and creams.

Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-

IMPROVED LILLIPUT OR BABY.

Mixed—Small round and compact flowers borne on strong stems. This striking strain is of great value for bedding purposes. Colours range from bright reds, orange, and yellow, through pink and rose shades.

Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-

SCABIOUS-FLOWERED MIXED.

Plants 2 to 2½ feet high, bearing numerous medium sized flowers remarkably resembling the annual Scabiosa. Colours include crimson, scarlet, orange, yellow, pink and white. **Pkts., 6d.; $\frac{1}{4}$ oz., 2/6; oz., 8/-**

Zinnia Lilliput Pastel Mixture.

"Claremont" Spring and Summer Flowering SWEET PEAS

THE varieties listed here have been selected after exhaustive trials in our Nurseries, and we offer same with every confidence that they will give a wealth of bloom and a variety of colors equalling the winter-flowering types. These Peas should be sown from May to September.

NOVELTIES

We specially recommend these outstanding varieties:

ARISTOCRAT—There is richness in the tone and lively shades of color in "Aristocrat" which lift the flower above the ordinary level of pink Sweet Peas. At the base of the petals the tints are soft and delicate, but both standard and wings are brightly illumined with a tint as almond blossom.

BLACK BESS—Deepest maroon, the color of a finished grape, combined with the tint of mature red wine, glossed with sheen of black satin. The fragrance is superb.

GIGANTIC—Conspicuous for the size of its blooms and the strength and vigour of its haulm and foliage. It is densely frilled and the blooms are produced with unrestrained freedom, and the "fives" may almost be described as average. For a white Sweet Pea to possess such stamina is a triumph hitherto unattainable, and added to all other merits is a fragrance sweeter and more powerful than any other variety.

LOCH LOMOND—The richest mahogany shades, brightened by a sheen free from sooty or rusty black. The flowers are large, finely modelled, well-placed on strong, rigid stems.

HIGHLANDER—This Pea is a solid, pure and altogether lovely lavender color throughout, and that color remains steadfast until flowers wither. The blooms are of exquisite form, well-placed on stems of great length and substance without coarseness. First-class exhibition quality.

MRS. TOM JONES—Clear, bright blue. Sound in constitution, vigorous in growth, prolific in bearing capacity, substantial in texture, great in size and a model of perfection in form of flowers and build of spray.

RED BOY—A deep crimson. A fine variety for garden or home decoration.

STARTLER—Startler is of different coloring to other scarlets; there is enough red in it to escape harshness, enough gold to maintain its brilliance, and gloss sufficient to preserve it from burning or bleaching. Startler is a big flower on strong stems. It has shape and quality and good constitution.

SUPERFINE—Rich cream ground and upon this a distinctive shade of pink with a glow of lustrous salmon, sparkles with vivacity. Summer's sunshine neither bleaches nor scorches the blossoms.

PACKETS, 1/- EACH

SPECIAL OFFER B.38: ONE PACKET OF EACH, 7/6

GENERAL LIST

ADVANCE—Salmon suffused with soft shrimp-pink overlaying rich cream ground. Absolutely sun-proof.

AMBITION—A perfectly distinct lavender, with a darker shade on the base of the standard and wings when young. A first-class Pea.

BLUEBELL—The flowers are of immense size, and the color the best of all blues. A strong grower.

BONNIE BRIAR—A rich rose-pink. The flowers are large, finely modelled on strong, rigid stems. A first-class exhibition variety.

BONNIE LASSIE—A pink of exceptional purity enhanced by a glittering sheen with a white ground visible at the base of the flower.

CAVALCADE—A mixture of ruby red, rich rose, golden salmon, merging from one to another like shot silk with a rim of intense brilliance at the extreme edge.

CHARITY—Rich, deep crimson; very large.

DANDY—Flushed deep almond pink on the wing petals with a satiny sheen which gives the color warmth.

ELSTREE—A soft shade of pink with an undercurrent of rich cream. It is of great breadth and rare substance.

FORTUNE—Very rich dark blue, bright and solid. The standards which are of great size, beautifully waved, are a real rich violet. Suitable for garden decoration and exhibition.

GOLDFINCH—The broadly expanded standards are rich and glowing with golden tints, while the folding of the wings enhances the warmth of the shades of pink. "Goldfinch" will delight the grower.

HEADLIGHT—A bright, sun-proof orange-scarlet self. The flowers are large and well-placed on long stems. A grand variety for the exhibitor.

HONOUR—Rich, deep crimson, very large.

JUMBO—Rich cerise with an undercurrent of cherry red, with the solidity of a pure self-color. "Jumbo" is a monster among Sweet Peas, bold, impressive and strikingly beautiful.

JUNE—Beautiful lilac pink. The color is wonderfully even throughout the flower, and these are of a size which makes "June" quite a first-class exhibition Pea.

LADY LILFORD—A pleasing shade of pale blue, having a veining of a deeper, although still soft blue, which gives the standards and wings a decided loveliness, the color concentrates at the edges. Excellent form.

LADY LOCH—A beautifully frilled Pea, best described as the shiny tints of pink usually found in Mother-of-Pearl.

MAGNET—A brilliant pink, very heavily suffused on a rich cream ground. A wonderful grower under all conditions. Large flowers are borne on long, stout stems, producing in abundance four or five flowered sprays.

MAYFAIR—A bright, rich rose pink on a well-defined white ground. The perfectly formed flowers are of immense size, carried on long, stout stems.

MOLLIE—A fine cerise with a suggestion of orange. Flowers large and of good form.

MRS. A. SEARLES—Distinctive rich pink, merging into a soft orient-red self, with a subtle undercurrent of golden orange.

OLYMPIA—The flowers, which are very large, are of perfect form and well-placed on stout stems. The color is a rich, clear purple.

PREMIER—Absolutely the best in its color class. A perfect fusion of salmon and cerise blended into one tint. "Premier" has all the strength and substance a good flower needs.

PURPLE KING—A rich, clean, solid color that makes the perfectly-modelled flowers stand out conspicuously. "Purple King" is deeper than the purple Sweet Peas we know of to-day.

ROYAL MAUVE—The color of this magnificent flower is rich, bright mauve, clean, solid, decisive in tone without harshness.

SHEBA—The exact color corresponds to the brightest part of our variety "Superfine," but, being a self, it is more luminant and decisive in effect. "Sheba" will stand out conspicuously beautiful against any other Sweet Pea.

SNOWBALL—This is undoubtedly the best pure white Sweet Pea in existence, and much more frilled than any other variety. Vigorous, giving abundance of four and five flowered snow white sprays, on long, stout stems.

SYBIL HENSHAW—Deep, rich crimson lake, with a bright, metallic sheen overlaying the standard; very vigorous.

SUNSET—One of the strongest Sweet Peas grown. The standard is a bright rose; flushed with glowing cherry red. The wings are bright rose with golden blotch at the base, which gives the flower a very effective appearance.

THE PRINCE—A first-class exhibition variety. The flowers are exceptionally large and of magnificent form. The standard extends far beyond the keel. The color is a rich, clear crimson, overlaid with a beautiful metallic sheen.

THRILLER—"Thriller" is the best of all orange-scarlets. The red of the shining cherry and an orange of the richest tangerine hue are strongest in the standards, and the brightest in the wings.

WARRIOR—Very large, shining maroon.

WELCOME—The most brilliant and dazzling scarlet Sweet Pea yet introduced. Sun-proof, self-color. The flowers are large and borne on stout stems. Vigorous.

WHAT JOY—Large, solid, well-waved cream; vigorous grower, producing fours on wonderful stems.

YELLOW TIP—The nearest approach to yellow achieved. The flowers are large and well-balanced. Its form, vigor and purity cannot but help to make this the best of all cream Sweet Peas.

YOUTH—A white ground Picotee variety with deep pink edge. Strong grower and one of the best for exhibition.

FINEST MIXED—A well-balanced and complete mixture of all the best varieties carefully prepared and blended in the right color proportion.

Packet, 3d.; Large Packet, 6d.

STINTON'S CLAREMONT LAWN GRASSES

STINTON'S Lawn Grass Seeds have given universal satisfaction for the past 30 years and are used on many of the largest estates in every section of the country for making the best lawns. Our mixtures contain only the best grades of re-cleaned grasses, blended in proportions to give quick and permanent results.

The following varieties of Grass Seeds are available:—

CHEWINGS FESCUE
COUCH GRASS
CREEPING BENT

CRESTED DOGTAIL
ENGLISH RYE

IRISH RYE
KENTUCKY BLUE

All Grass Seeds are subject to market and currency fluctuations and prices will be forwarded on request.

CLAREMONT "MEADOW GREEN" MIXTURE

This excellent mixture produces a perfect as well as permanent lawn—of luxuriant richness. It quickly forms a closely interwoven, firm and elastic turf ready for cutting about 6 weeks after sowing. Our years of experience have given us the knowledge of which grasses are the most suitable for a perfect lawn mixture. Claremont "Meadow Green" Lawn Grass Mixture contains only the finest grasses. Our seeds being thoroughly re-cleaned and free from weeds, rank high as some of the best procurable.

1 Lb., 3/-; 5 Lbs., 13/9; 10 Lbs., 25/9.

CLAREMONT "ULTRA GREEN" MIXTURE (For Shady Situations)

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

1 Lb., 3/-; 5 Lbs., 13/9; 10 Lbs., 25/9.

BUFFALO GRASS ROOTS

Buffalo Grass Lawns are eminently suited for light sandy soils, and for planting in coastal regions. Roots should be planted from September to December.

PRICE . . . 10/- Per Sack.

SUBJECTS FOR A DRY POSITION

WE list on this page subjects that will thrive in dry, hot positions. The harder the conditions, the better they like it. Many Gardeners neglect such a situation, but it can be the brightest spot of the garden by sowing the correct varieties of plants as recommended hereunder.

DIMORPHOTHECA

(STAR OF THE VELDT)

The Dimorphotheca is one of the quickest of our annuals to bloom, and may often be had in perfection within six weeks from an open ground sowing made in September or October. The rich orange colour of the type has become exceedingly popular wherever it is grown, as also have the new brilliant apricot, and lemon-coloured varieties.

Dimorphotheca

- AURANTIACA GOLDEN WEST**—Vivid Golden-yellow. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-
- AURANTIACA SALMON BEAUTY**—True salmon, delicate and attractive. Pkts., 6d.; $\frac{1}{4}$ oz., 1/9; oz., 6/-
- AURANTIACA HYBRIDA MIXED**—Colours range from white, cream and salmon to deep orange. Pkts., 6d.; $\frac{1}{4}$ oz., 1/-; oz., 3/9
- ECKLONIS (PERENNIAL)**—Makes a spreading bushy plant covered with large white flowers with small deep blue centre. Pkts., 6d.

Portulaca
Grandiflora Single Mixed.

URSINIA ANETHOIDES NEW HYBRIDS

JEWELS OF THE VELDT—Brilliant flowered Daisy-like annual from the Cape. The dwarf plants are furnished with finely-cut foliage, above which rise the brilliant flowers which are borne in profusion. The colours range from yellow to deep orange. The plants should be grown on a sunny position and when in flower will win a great deal of admiration.

Pkts., 6d.

MESEMBRYANTHEMUM CRINIFLORUM

(Syn *Dorotheanthus Criniflorus*)

LIVINGSTONE DAISY—Absolutely hardy and one of the most easily grown annuals. Plants of slightly spreading habit, literally covered with flowers, measuring about one inch. They are pure whites tinted and edged with rose, crimson, pink and buff; and self colours including primrose, golden buff, apricot, crimson and pink. Ideal carpet or rockery plant Pkts., 1/-

9 Packets for 4/-

ESCHSCHOLTZIA

(CALIFORNIA POPPY)

Only may those who have used Eschscholtzias for summer bedding have any idea of the gorgeous effect produced by these plants. Although Eschscholtzias are strictly perennials, the modern practice is to grow them as annuals. From seed sown in the open ground in spring, the plants will produce a fine display of flowers during the summer months.

Novelty Blend Packets, 6d.

See Colour Block Page 10.

PORTULACA

(SUN PLANT OR MOSS ROSE)

A well-known and most useful plant for covering dry, barren soils. The plants are extremely bright and vary from white, pale-rose, and yellow, to dazzling scarlet, orange, purple and dark red.

GRANDIFLORA DOUBLE MIXED

Pkts., 6d.; $\frac{1}{4}$ oz., 3/3

GRANDIFLORA SINGLE MIXED

Pkts., 6d.; $\frac{1}{4}$ oz., 1/-

Portulaca
Grandiflora Double Mixed.

CACTI AND SUCCULENTS

UNDER this heading are to be found some beautiful flowering plants, and all are more or less ornamental, at the same time possessing peculiar advantages over any other class of plants, because of their tenacity of life, which renders them suitable for planting in nooks and corners or under trees where little or nothing else would live.

The grouping of a collection of these plants together provides a very singular and interesting feature and the attention required is almost negligible.

SPECIAL CONCESSION OFFER.

We will be pleased to supply collections of Cacti and Succulents in distinct varieties (our selection) as follows:—

Twelve, 15/- hundred, 105/-

We would point out to our clients that in compiling the above collections a full range will be included regardless of prices of individual varieties in our Catalogue. Our collections therefore offer a definite monetary saving to our clients, and satisfaction is assured.

GROWN FROM PEDIGREED STOCKS

ARTICHOKE

Large Green Globe—Fine globular green heads, rich flavour. Pkts., 6d.; oz., 3/3

Purple Globe—Hardy and rich flavoured. Pkts., 6d.

ASPARAGUS

Connover's Colossal—The best known and most popular of the standard varieties. Very desirable variety for home and market gardeners' use. The sprouts are clean in growth and of delicious flavour. Pkts., 6d.; oz., 1/-

Erfurt Giant—Another good standard variety, prolific in production of very large and tender shoots. Of delicious flavour. Pkts., 6d.; oz., 1/-

BROCCOLI

Adam's Early White—Without doubt one of the best of the autumn and winter varieties. Heads solid, of the purest white and of splendid texture and quality. Pkts., 3d.; oz., 1/6

Hurst's First of All—One of the earliest varieties. Well-formed heads of great purity and finest texture, which remain solid for a long time. Pkts., 3d.; oz., 1/6

BRUSSELS SPROUTS

Covent Garden—A fine growing Sprout which we feel sure will meet with the approval of our many customers. It is very hardy, and the stalks are well clothed with medium-sized solid Sprouts which remain a long time in condition. Pkts., 3d.; oz., 1/-

Dobbie's Selected—Splendid dwarf-growing strain which gives a fine yield of hard and firm Sprouts of quality. We strongly recommend it to all who are desirous of having a hardy, productive and fine flavoured Sprout. Pkts., 3d.; oz., 1/-

STINTON'S BEANS

Broad Beans

Edible Pod—Similar to the original Broad Bean having the same flavour. The young pods may be picked and cooked whole, making an excellent table dish; exceptionally heavy cropper. Pkts., 6d.; lb., 1/6

Butter Beans

Startler Waxpod—One of the best of the wax-pods for home use. Plants medium size and very productive. Pkts., 6d.; lb., 1/6

Climbing Beans

Dairymaid—A lovely wax or yellow podded sort, often 15 inches long. If a wax podded bean is desired for home or market use, this is the best variety to plant. Pkts., 6d.; lb., 1/6

Epicure—An almost stringless variety of delicious flavour. The plant is vigorous and bears an abundance of large, tender pods. Pkts., 6d.; lb., 1/6

Scarlet Runner—Largely planted for its brilliant scarlet flowers, although it is also good as a soup bean when young. May also be used green when shelled. Pkts., 6d.; lb., 2/-

The Czar—Enormous podded white Runner Bean, tender and of good quality. Pkts., 6d. and 1/-

Blue Wonder—An extremely heavy cropper and of dwarf bush type. Pods striking deep blue colour, when boiled become a deep green colour, and are of excellent flavour. Pkts., 6d.; 1/6 lb.

Brown Beauty—One of the finest varieties in cultivation; prolific, very large pods, excellent flavour, and practically immune from disease. Pkts., 6d.; lb., 2/-

Canadian Wonder—This variety is strong in growth and bears heavy crops of broad hand-some pods. Pkts., 6d.; lb., 1/6

Feltham Prolific—This excellent variety is fast becoming popular with gardeners. Pods are long and slender, and almost entirely stringless. One of the heaviest croppers. Pkts., 6d.; lb., 1/6

Pale Dun—An early Bean and extremely productive in heavy crops of well-filled pods. Pkts., 6d.; lb., 1/6

We are pleased to quote quantity

prices of Vegetable Seeds to Large

Growers

All Flower Seeds are Post Free and Vegetable Seeds with the exception of Peas, Beans and Sweet Corn are Post Free also.

STINTON'S BEETS

Cheltenham Selected—This excellent long Beet increases in popularity. Roots clean, well-shaped and the flavour all that can be desired. Roots of excellent colour; very uniform in type. Green leaves. . . . **Pkts., 3d.; oz., 1/-**

Coon King—Beet "Coon King" is dark red, being the deepest and richest colour in Beet known to date. The variety matures rapidly, the roots are globular in shape, sweet, juicy and tender, well suited for home vegetable growers. The root stands well for some weeks and it is very handsome in appearance.

Pkts., 3d.; oz., 1/-

"Claremont" Deep Blood Red—This is a most refined and distinct strain. It has a short top, the roots are globular, with a very short neck and slender tap root. Blood red colour with no light zoning makes it especially desirable either for home use or bunching for market.

Pkts., 3d.; oz., 1/-

Crimson Globe—An excellent variety, perfectly globular in shape. Deep blood red flesh and an extra fine top. . . . **Pkts., 3d.; oz., 1/-**

Crimson King—A selection developed for those who require a large globe Beet for exhibition purposes. It has a short top with a small collar, and fine tap root. The flesh is deep blood crimson showing a minimum of growth rings. . . . **Pkts., 3d.; oz., 1/-**

Detroit Select Globe—This Beet is the most uniform stock we have seen in shape, foliage and colour of flesh. The shape is globular—the top exceedingly fine—the flesh is a deep red throughout, and quite free from "rings," the texture being fine grained and the flesh crisp and sweet. . . . **Pkts., 6d.**

SWISS CHARD OR SILVER BEET

Lucullus—Leaves very crinkled of an attractive green colour and very thick and fleshy. Easily grown and furnishes a supply of good greens for a long period. Very desirable for poultry feed. . . . **Pkts., 3d.; oz., 1/-**

New Giant Sea Kale—The texture of the leaves is thick and fleshy. May be served as a separate dish in the same manner as Asparagus.

Pkts., 3d.

Silver or Sea Kale—Cultivated for its leaf stalks, which are served like Asparagus; and for its leaves cooked like Spinach. Cut often, as new stalks will be produced. . . . **Pkts., 3d.; oz., 1/-**

CELERY

Golden Self-Blanching—It produces rather a thick blocky head of finest quality, blanches easily to a beautiful golden yellow, especially on very rich land. . . . **Pkts., 3d.; oz., 1/6**

Henderson's White Plume—A crisp, solid and fine flavoured variety, requiring but little earthing up to blanch. . . . **Pkts., 3d.; oz., 1/6**

Stinton's Reselected Red—We can with confidence recommend this Celery. It is a strong-growing sort, very crisp, solid, and well-flavoured, and not liable to run to seed. . . . **Pkts., 3d.; oz., 1/6**

Soup Celery—Seeds for flavouring soup, etc.
oz., 6d.; ¼ lb., 1/9; lb., 5/-

GARDEN CABBAGE

All the Year Round—Medium size, deep green, and of compact habit, somewhat conical in shape; very rapid in growth, therefore tender and crisp. May be sown successionally for crops throughout spring, summer and autumn. **Pkts., 3d.; oz., 1/-**

Drumhead—First rate stock, with solid but tender hearts; extensively grown for market purposes. A large flat Cabbage with splendid holding qualities. . . . **Pkts., 3d.; oz., 1/-**

East Ham—This splendid Cabbage is one of the best for growing for home use. Heads of medium size, firm, tender, and excellent in flavour. Not altogether satisfactory for marketing purposes as the tender leaves bruise easily. . . . **Pkts., 3d.; oz., 1/-**

Enfield Market—Large early variety with a firm crisp heart; much grown for market purposes. **Pkts., 3d.; oz., 1/-**

Fly Resisting—This variety is invaluable for market growers, has large firm heads. A variety that is almost fly resisting. **Pkts., 3d.; oz., 1/-**

Flower of Spring—Plants compact, with few outer leaves, and the firm, full-sized hearts are exceedingly delicate in flavour. One of the best of all varieties. . . . **Pkts., 3d.; oz., 1/-**

Greyhound—One of the earliest varieties, being in heart and fit to cut weeks ahead of all other sorts usually associated with earliness—all, of course, being sown at the same time. It is of an attractive glaucous appearance, has extremely few outer leaves, good sized hearts, somewhat pointed and broad-based, and is of such compact habit that it can be with advantage planted more closely than is usual with other sorts. . . . **Pkts., 3d.; oz., 1/3**

CARROT

Altringham Large Red—A fine strain of Intermediate type, heavy cropper of first-rate quality, roots long and tender. Should be grown on deep soils. . . . **Pkts., 3d.; oz., 1/-**

Champion Scarlet Horn—A remarkably fine Carrot, cylindrical in shape and almost entirely free from core. Flesh deep red, tender and delicate in flavour. . . . **Pkts., 3d.; oz., 1/-**

Chantenay—The best of the early Carrots, about 6 inches long, stump-rooted, smooth, fine-grained and sweet. A fine sort for bunching for market or for home gardens. This variety is deep orange in colour, a heavy yielder and has a growing period of about 70 days. **Pkts., 3d.; oz., 1/-**

James' Scarlet Intermediate—Large-sized Intermediate roots of good colour. An old favourite which has always yielded good results. **Pkts., 3d.; oz., 1/-**

New Red Intermediate—This superb type of Intermediate Carrot has quite superseded the ordinary variety in gardens where the finest vegetables are grown. Skin clear, bright in colour and the flesh close in texture, with very small core. Large and good. **Pkts., 3d.; oz., 1/-**

Red Cored Early Market—The roots are refined in appearance, with small collars, are evenly stumped and have very small tap roots. The exterior is smooth and free from large eyes, while the colour is decidedly deeper than the ordinary varieties. The core is small and nearly the same colour as the flesh. This new strain of Carrot should become very popular for either market gardeners or private growers. **Pkts., 6d.**

Stinton's Coreless—This is another selection we have made to obtain a "coreless" type of Champion Scarlet Horn. Colour and flavour are excellent, and we thoroughly recommend it for private and market garden uses; 6 to 7 inches long, tender and sweet. **Pkts., 3d.; oz., 1/-**

Stinton's New Red—Similar in type to the well-known James' Intermediate, but superior to that variety in colour, form useful where longer Carrots cannot be grown. . . . **Pkts., 3d.; oz., 1/-**

Stinton's Scarlet Horn—An extremely popular Carrot, very tender, with delicate flavour and almost entire absence of core. Flesh deep red; highly recommended. . . . **Pkts., 3d.; oz., 1/-**

Harbinger—One of the earliest varieties. The hearts are small but extremely delicious eating, and will be highly prized at a time when Cabbages are a delicacy. . . . **Pkts., 3d.; oz., 1/-**

Jeffries "Cotswold Queen"—The plant is of close, compact habit, the hearts of uniform cone shape, and the flavour is excellent. No other Cabbage, of its type, turns in as rapidly as does this variety, and for this reason alone it is indispensable both to the private and market gardener. It is equally good sown either in spring or autumn, and for general use and exhibition stands in a class by itself. **Pkts., 6d.**

Red Dutch or Pickling—Fine solid dark red heads, very desirable where a red Cabbage is wanted. **Pkts., 3d.; oz., 1/-**

Savoy Ormskirk Late Green—A splendid Savoy producing good solid heads and finely curled leaves; extremely hardy, yet of delicious flavour. **Pkts., 3d.; oz., 1/-**

St. John's Day—A large Drumhead variety, very early and firm hearting. Under favourable conditions it matures in three months. **Pkts., 3d.; oz., 1/-**

Succession—A wonderful strain and variety for summer and autumn use. Excellent flavour of delicious creamy quality; heads often grow from 14 to 20 lbs. in weight. . . . **Pkts., 3d.; oz., 1/-**

Chinese—Its growth resembles the Cos Lettuce, but the outer leaves have the general texture of ordinary cabbage. It may be used in several ways:

Raw in a salad.

The midribs used like celery or cooked like asparagus.

As ordinary cabbage.

Pe-Tsai—An early heading variety, rather tall narrow heads. Colour, light green.

Wong-bok—Will mature firm heads through the summer months. Dark green, compact heads.

CELERIAC

Large Smooth Prague—It is a turnip-rooted Celery of distinctive flavour similar to Celery. It makes a wonderful salad when cooked and cut cold. . . . **Pkts., 3d.**

CRESS

Extra Curled (Pepper Grass)—Grown very quickly from seed sown in drills. Leaves are finely curled and very ornamental, but as the plant runs very quickly to seed, frequent plantings should be made. . . . **Pkts., 3d.; oz., 2/-**

Water Cress—A heavy foliaged plant adapted to water culture. It has a slightly pungent taste. . . . **Pkts., 3d.; oz., 2/-**

CUCUMBER

Apple Shaped—Very sweet and tender fleshed; one of the best eating Cucumbers (round). **Pkts., 3d.; oz., 1/6**

Crystal Apple—A white skinned apple-shaped variety, showing no trace of yellow; produces a heavy crop on a compact and vigorous vine. **Pkts., 3d.; oz., 1/6**

Long Prickly—A fine garden variety, very prolific and vigorous grower. . . . **Pkts., 3d.; oz., 1/6**

Short Prickly—A short thick variety, producing early a great number of fruits of excellent flavour. . . . **Pkts., 3d.; oz., 1/6**

West India Gherkin—Quite distinct from other Cucumbers; vine resembles Water Melon, fruits small (2 inches long, 1 inch diameter) oval, used only for pickles when very small; very prolific. . . . **Pkts., 3d.; oz., 1/6**

ENDIVE

Green Curled—Green ribbed, curly leaves. Heart very crisp and bleaches to creamy white. A favourite variety which makes a splendid salad. **Pkts., 3d.; oz., 1/-**

Imperial Batavian—Makes an excellent winter salad, grown like Lettuce and heads tied loosely for blanching; regarded by some as the best of the Endives. . . . **Pkts., 3d.; oz., 1/-**

White Curled—Makes a fine salad; when ready for use outer leaves are green with centre of the head blanched to creamy-white. **Pkts., 3d.; oz., 1/-**

EGG PLANT

New York Giant Purple—An early variety, large, oval-shaped, and the deep purple kind that tastes surprisingly like oysters when fried. It has an indescribably delicate and delicious flavour when stewed. . . . **Pkts., 3d.; oz., 1/6**

HERBS

(Sweet—Pot and Medicinal)

A—Annual; B—Biennial; P—Perennial.

Angelica, B—The mid-rib can be eaten like Celery. The stalks and flowers are used in Confectionery.

Balm, P—An aromatic plant, the leaves of which are used for making Balm Tea and Balm Wine.

Basil (Sweet), A—For highly seasoned dishes.

Borage, A—Splendid for Bees. The young leaves make excellent salad.

Coriander, A—Cultivated principally for garnishing.

Dill, B—The leaves are used in pickles and sauce.

Henbane, P—Used for medicinal purposes.

Horehound, P—Useful for its tonic properties, and for cough remedies.

Hyssop, P—The leaves are used for making Hyssop tea, and other medicinal purposes.

Lavender, P—A well-known aromatic herb, the leaves of which are preserved for wardrobes.

Marjoram (Sweet), P—Used in soups and stuffing.

Rosemary, P—An aromatic herb, sometimes used for making hairwashes.

Rue, P—Used for poultry and garnishing.

Sage, P—Used for stuffing, sauces and other culinary purposes.

Savory (Summer), A—Used for flavouring and seasoning.

Savory (Winter), P—Used for flavouring and seasoning.

Tarragon, P—Used in salads and pickles.

Thyme (English), P—Used for soups and seasoning, also grown for Bees.

Wormwood, P—Used for medicinal purposes, also beneficial to poultry. Should be planted in all poultry grounds. **Pkts., 3d.**

KOHL RABI

Early Purple Vienna—Bright purple in colour; large and good. . . . **Pkts., 3d.; oz., 1/-**

Sander's Short Top—Flesh white and tender. medium size. . . . **Pkts., 3d.; oz., 1/-**

LEEK

Broad London Flag—An early, good and useful variety of quick growth. . . **Pkts., 3d.; oz., 1/-**

Dobbie's Champion—The champion grows very solid, with a moderate length of blanch, and is popular with all growers. Splendid for general crops. . . . **Pkts., 3d.; oz., 1/3**

MELON

MUSK OR ROCK MELONS

Early Hackensack (Cantaloupe)—Very early, a beautiful Melon, globular in shape and perfectly netted. Excellent flavour. **Pkts., 6d.; oz., 1/-**

Rocky Ford—Of the green-fleshed muskmelons, Rocky Ford is the recognized standard of excellence. The fruit is early, prolific and good carriers. . . . **Pkts., 6d.; oz., 1/-**

WATER MELONS

Cuban Queen—Flesh bright red; crisp, sugary and excellent flavour; very prolific. **Pkts., 6d.; oz., 1/-**

Florida Favorite—Rind light green with mottled stripes of darker green; crimson flesh, delicious flavour. Main crop, long. . . **Pkts., 6d.; oz., 1/-**

PIE OR PRESERVING MELONS

Citron—For jams or preserves. **Pkts., 6d.; oz., 1/-**

LETTUCE

N.B.—Lettuce seed is frequently taken from the soil by birds; the seed bed should therefore be covered with wire netting until the plants are through the soil.

All the Year Round—Stands a considerable time before running to seed. A good Lettuce for all seasons, as its name implies. **Pkts., 3d.; oz., 1/-**

Cool and Crisp—A variety of super quality. Remarkably firm head, which stands well after maturity and carries splendidly to market. Fresh appearance, heart fine, clear white, of first-class quality, having very few outer leaves. We strongly recommend this variety as an outstanding selection for both market gardeners and private growers' use. **Pkts., 3d.; oz., 1/-**

Iceberg—An excellent summer Lettuce producing a solid light green head with leaves tinged with red. The head is very large, white inside, crisp and sweet. . . . **Pkts., 3d.; oz., 1/-**

Neapolitan—A large compact variety, good for summer use. . . . **Pkts., 3d.; oz., 1/-**

Sutton's Favorite—A superior Cabbage Lettuce. Leaves attractively curled; hearts crisp and tender. Although a fairly early variety, it is among the last to run to seed. Stands well through dry weather. One of the best Lettuces for spring sowing, and on account of its hardy constitution it does well in autumn. **Pkts., 3d.; oz., 1/-**

Trocadero Improved—A main crop variety, producing good solid hearts of a delicate and attractive shade of silvery green entirely without red tinge. The hearts are of good marketable size, very uniform and compact, there being very few waste outer leaves. **Pkts., 6d.**

New York—An early variety that does well in mid-summer. Hardy, crisp and medium-sized. Good in warm climates. . . **Pkts., 3d.; oz., 1/-**

Webb's Wonderful—The average size of this Lettuce, with ordinary cultivation is from 2 lbs. to 3 lbs. in weight. The heart is very solid, of a pale green colour, very tender and very crisp. . . . **Pkts., 3d.; oz., 1/-**

MUSTARD

Chinese White—A hardy large-leaved variety, very mild and in great favour. **Pkts., 3d.; oz., 1/-**

Finest White—A large fancy leaved Mustard of finest quality. . . . **Pkts., 3d.; oz., 1/-**

ONION

Brown Globe—Very hardy, and a good keeper. **Pkts., 3d.; oz., 1/-**

Brown Spanish—A standard variety whose merits are well-known. The best for general crop. **Pkts., 3d.; oz., 1/-**

Cranston's Excelsior—Handsome globe shape, large, solid, with small neck, straw colour; extra large bulbs are produced by this strain. **Pkts., 6d.; oz., 2/6**

Giant White Italian—The largest of the White Tripoli Onions, often measuring 20 inches in circumference. . . . **Pkts., 3d.; oz., 1/-**

Goldmine—We recommend this superb variety for its excellent productive qualities. Bulbs are very handsome, of large size, having a golden brown skin. They are perfectly globular in shape and mild in flavour. Excellent for show or table. . . . **Pkts., 6d.**

Monarch "Claremont" Improved—One of the finest Onions in cultivation. A perfectly golden and globular ball. . . **Pkts., 6d.; oz., 2/3**

Odorless—A most valuable addition. The large, handsome bulbs with a golden yellow skin are almost, if not entirely, free from the usual pungent odour and taste. Bulbs should be allowed to ripen before use. Mild, tender and fine quality. . . . **Pkts., 6d.**

Pompeii—The smallest and the earliest pickling variety. . . . **Pkts., 3d.; oz., 1/-**

Silver Skinned Pickling—Large sized pickling Onion. . . . **Pkts., 3d.; oz., 1/-**

Up-to-Date "Claremont" Selected—A splendid solid Onion of good size, perfect shape and mild flavour. An extra good keeper, the bulb remaining solid for an unusual length of time. The skin is a pleasing shade of dark brown. . . . **Pkts., 3d.**

White Spanish—Useful and mild flavoured. **Pkts., 3d.; oz., 1/-**

PARSLEY

"Claremont" Triple Curled—Beautifully curled, and specially adapted for garnishing. One of the best varieties for general cultivation. **Pkts., 3d.**

Green Gem—Of a consistently rich deep green. Most exquisitely and closely curled and compact habit. . . . **Pkts., 3d.**

Superb Dwarf Perfection (Improved Moss-curved)—A new selection of dwarf compact Parsley, of a pleasing green colour and exquisitely curled. The hardness of this variety enhances its value. Suitable for pot culture. **Pkts., 3d.**

PARSNIP

Dobbie's Select—From its large size it is well fitted for competition purposes and is generally recognized as the best for exhibition. No other can compare with it for appearance, being of a beautiful pearly white colour. **Pkts., 3d.; ½ lb., 1/-**

Hollow Crown—One of the best Parsnips producing very long smooth pure white roots of the finest quality. . . . **Pkts., 3d.; ½ lb., 1/-**

Oxheart—A distinct and valuable type. This variety is one which we consider will be of great assistance to many growers. The roots do not grow as long as some of the older types, but are much fatter, and shorter in growth therefore being easier to dig. Roots are about 8 inches long, being ready for use two to three weeks earlier than such varieties as "Hollow Crown," etc. "Oxheart" will thrive on much inferior soil to the older variety "Hollow Crown." **Pkts., 3d.; ½ lb., 1/-**

Tender and True—An admirable Parsnip which increases in popularity every year. Not quite so large as some of the other varieties, but superb quality, with a clear and smooth skin. **Pkts., 3d.; ½ lb., 1/-**

GARDEN PEAS

English Wonder—The plants grow about 12 inches high and bear an abundance of beautiful green pods, with from 8 to 10 Peas in each which are of excellent quality and flavour. We have every confidence in recommending this as the best **Early Dwarf Pea**. . . **Pkts., 6d.; lb., 1/-**

Greenfeast—Good heavy cropper, reliable early dwarf variety. 12 to 15 inches high. **Pkts., 6d.; lb., 1/-**

Little Marvel—A heavy cropping dwarf Pea. Pods dark green, usually produced in pairs. Medium in size and well filled. Flavour excellent. A grand Pea for small gardens. **Pkts., 6d.; lb., 1/-**

Luscious—A fine improvement on the well-known variety "Stratagem." Plants will grow three feet high if staked, the pods are 20 per cent. larger and contain from 8 to 10 Peas to a pod. Excellent deep green in colour and fine flavour. Heavy cropper. . . . **Pkts., 6d.; lb., 1/6**

Prizetaker—For exhibition purposes it is impossible to find a variety more admirably suited than "Prizetaker." It is one of the most prolific varieties, the plants may be staked to 4 or 5 feet, but even if left unstaked it is a very heavy cropper. The flavour is sweet, delicious, melting and juicy. We strongly recommend it as being a type of superior quality for home and exhibition requirements. **Pkts., 6d.; lb., 1/6**

Stratagem—A dwarf variety, producing large and well filled pods of excellent Peas. Wrinkled; an enormous cropper; height, 2 feet. **Pkts., 6d.; lb., 1/3**

Sugar or Edible Podded—Very tender and sweet flavoured pods, which when young may be used entire like French Beans. Tall. **Pkts., 6d.**

Yorkshire Hero—One of the best wrinkled Marrows, a heavy cropper and fine flavour; an excellent market variety; height, 3 feet. **Pkts., 6d.; lb., 1/-**

PEPPER

(Capsicum)

- Bell or Bull Nose**—The earliest of the sweet bell shaped Peppers, medium size, long a favourite among gardeners. **Pkts., 6d.**
- Elephant's Trunk**—This is a handsome variety, the fruit being a beautiful glossy scarlet, measuring from 8 to 10 inches in length by 2 to 2½ inches in breadth, resembling in shape the trunk of an elephant; flavour mild, and valuable for use in green state. **Pkts., 6d.**
- Long Red**—Bright red; fruit 3 to 4 inches in length. **Pkts., 6d.**

PUMPKIN

- Queensland Blue**—Medium size, excellent flavour and a good keeper. **Pkts., 6d.; oz., 1/-**
- Triamble**—One of the best table varieties. Very dry eating variety of excellent flavour; keeps well and is a splendid market variety. **Pkts., 6d.; oz., 1/-**
- Trombone**—A fine variety for warm districts. A very sugary variety. **Pkts., 6d.; oz., 1/-**
- Turk's Cap**—A very desirable sort. It is a good cropper and dry and well flavoured. Flesh orange-yellow, thick, fine grained. **Pkts., 6d.; oz., 1/-**

RADISH

- Black Spanish Long**—A hardy large rather pungent variety for winter use. Keeps unusually well, is 8 to 9 inches long and 2 inches thick. The skin is black and the flesh white and crisp. **Pkts., 6d.**
- French Breakfast** (Turnip Rooted)—A splendid variety for home use; oblong, bright scarlet, white tip. Grows about 1½ inches long and ¾ inch thick. **Pkts., 3d.; ½ lb., 1/-**
- Long Scarlet**—A well-known popular variety. Very attractive colour and fine quality. Grows to a length of about 6 inches. **Pkts., 3d.; ½ lb., 1/-**
- Long White Icicle**—The leader among the white Radishes; pure white, very crisp and brittle. Grows 6 inches long and about 2 inches out of the ground. Being unusually mild, it is an extremely popular variety amongst home gardeners. **Pkts., 3d.; ½ lb., 1/-**
- Scarlet Gem** (Turnip Rooted)—Globe-shaped rich bright scarlet in colour. Is growing in popularity and promises to become a leading variety. **Pkts., 3d.; ½ lb., 1/-**
- Turnip-rooted Mixed**—A mixture of the red and white turnip-rooted varieties. **Pkts., 3d.; ½ lb., 1/-**

RHUBARB

- Myatt's Linnaeus**—A large early variety, crisp and finely flavoured. Sticks can be pulled six months after sowing of seed. **Pkts., 6d.**
- Myatt's Victoria**—Large variety and one of the best for general use. Good red colour. **Pkts., 6d.**

SEA KALE

- Lily White**—A delicate and tender variety, recommended as a first-class grower. **Pkts., 3d.**

SALSIFY

(Oyster Plant)

- Sandwich Island**—An improved type and the largest and most delicious Salsify in cultivation, with long, white tapering roots. **Pkts., 6d.; oz., 1/6**

SCORZONERA

(Black Vegetable Oyster)

- Culture**—The same as for Salsify, to which in some respects it is similar. It is cultivated exclusively for the roots, which may be boiled and served plain like Parsnips. It should be soaked in water for a few hours before boiling to extract the bitter flavour. **Pkts., 6d.; oz., 1/6**

SPINACH

- Long Standing Prickly**—The best for winter use. **Pkts., 3d.; ½ lb., 1/-**
- Long Standing Round**—The best for summer use. **Pkts., 3d.; ½ lb., 1/-**
- New Zealand**—This variety is also used as a salad; should be sown in September. **Pkts., 3d.; ½ lb., 1/-**
- Viroflay**—The leading smooth seeded variety. Leaves large, smooth, thick and tender. **Pkts., 3d.; ½ lb., 1/-**

SQUASH

- Green Hubbard**—The fruits are pointed both ends, slightly warted, and deep green in colour. Orange-yellow flesh is dry, sweet and thick; early. **Pkts., 6d.**
- White Custard**—An excellent variety of Squash, very productive and of good flavour. **Pkts., 6d.**

SWEET CORN

- Country Gentleman**—Produces small white cobs densely covered with irregular rows of white grains of excellent quality. One of the best late varieties. **Pkts., 6d.**
- Early Fordhook**—This occupies the enviable position of being the earliest large white Sweet Corn. The ears are 6 to 7 inches long, set with eight rows of pearly white, sweet kernels. **Pkts., 6d.**
- Golden Bantam**—This golden coloured corn is the leading variety for early home garden planting. Ears, though small, are numerous and of finest quality. Very sweet and tender. **Pkts., 6d.**

TOMATOES

- Ailsa Craig**—The smooth skin and rich colour of the medium-sized fruits give them a handsome appearance on the table, and they will be found equally fine in quality. The plant is very short jointed, thus ensuring a heavy crop. **Pkts., 6d.**
- Best of All**—Sets freely and is an immense cropper, yielding large bunches at frequent intervals all over the plant. Fruit smooth, of good form and size, and so solid that little seed is produced. Colour, deep scarlet. The name amply covers the value of this splendid Tomato. **Pkts., 6d.**
- Bide's Recruit**—A distinct and fine Tomato which ripens early. Fruits almost round, smooth, medium in size, growing in clusters; colour, bright crimson. First-class table variety. **Pkts., 6d.**
- Golden Triumph**—Medium-sized fruits are smooth, of a fine golden colour, good flavour; ripens early. **Pkts., 6d.**
- Kondine Red**—Smooth, firm, medium-sized fruits, prolific and fairly early. **Pkts., 6d.**
- Large Red**—A variety grown largely in Victoria and South Australia. The fruit is inclined to be ribbed with large empty seed cavities, but it has the ability to set fruits under much cooler conditions than most other sorts. **Pkts., 6d.; oz., 1/-**

- Market King**—This is a specially selected stock of a particularly fine Tomato. Fruit firm, smooth, of good form and size; colour, deep scarlet. It is an immense cropper yielding large bunches of fruit at short intervals all over the plant. **Pkts., 6d.**

- Perfection**—A splendid Tomato, combining productiveness with admirable form, high quality and large size. Fruits smooth; colour, rich bright red; flesh solid, almost free from seeds, and of an agreeable piquant flavour. **Pkts., 6d.**

- Sunrise**—This Tomato combines productiveness, utility, size, rich colour, and the choicest flavour. A combination unequalled in any other variety. **Pkts., 6d.**

TURNIP

- Early White Snowball Improved**—An early and perfectly formed white Turnip, splendid for exhibition. **Pkts., 3d.; ½ lb., 1/-**
- Early White Stone**—One of the most popular varieties for general use. Flesh white and tender. **Pkts., 3d.; ½ lb., 1/-**
- Golden Ball**—A handsome variety with smooth skin. Flesh, bright orange-yellow, firm and of excellent flavour. **Pkts., 3d.; ½ lb., 1/3**
- Laing's Garden Swede**—A large globe-shaped variety which gives wonderful returns and is the standard sort for growing for market. **Pkts., 3d.; ½ lb., 1/3**
- Manchester Market**—A good green-topped market variety, very quick in growth and of delicious flavour. **Pkts., 3d.; ½ lb., 1/-**
- Stinton's Globe**—This may be sown all the year round, and is of specially good use for winter and spring. Very good for table use. White in colour with a glowing purple top. Stands and keeps in good quality far better than older sorts. **Pkts., 6d.**
- Stinton's Perfect Model**—The earliest and most perfectly formed round white Turnip for garden use. Our stock has been continuously selected for many years, resulting in a beautiful shape, with short top and a single tap root. Flesh snowy white, solid and mild in flavour. **Pkts., 3d.; ½ lb., 1/-**

VEGETABLE MARROW

- Long White Fruited Bush**—White or cream fruit of the typical Marrow shape and size, but borne on plants of non-running bush habit. Heavy cropper; splendid sort. **Pkts., 6d.; oz., 1/-**
- Long Green Fruited Bush**—Of similar habit to above, but fruit is dark green, changing to green striped yellow as it ripens. Good flavour. **Pkts., 6d.; oz., 1/-**
- Long Green Running**—A vining or running Marrow. The fruit is green with light markings. A "dry" Marrow, excellent flavour. **Pkts., 6d.; oz., 1/-**
- Long White Running**—Up to 15 inches or more long. Cream colour and of splendid flavour; heavy yielder. This is of vining or running habit. **Pkts., 6d.; oz., 1/-**

"CLAREMONT" TOMATO PLANTS

For the convenience of our clients who desire to obtain plants of the more choice dessert varieties of Tomatoes, we offer during the months of September, October and November, the following varieties:—

Ailsa Craig	Market King
Best of All	Perfection
Bide's Recruit	
1/- per dozen.	7/- per hundred.

The plants are raised in limited quantities only, and it is imperative that orders be placed early that delivery can be assured.

SPECIAL CONCESSION OFFER

We will be pleased to supply collections of **CHRYSANTHEMUMS** in distinct varieties (Our selection) as follows:—

Twelve 7/6

Hundred 52/6

We would point out to our clients that in compiling the above collections a full colour range will be included regardless of prices of individual varieties shown in our catalogue. Our collections therefore offer a definite monetary saving to our clients and satisfaction is assured.

PERENNIAL PHLOX

STINTON'S GIANT "CLAREMONT" STRAIN

A new large-flowered race, with flowers of perfect form, borne on stout but graceful stems, at least twice as large as the previously best known types. The colours cover a diversity of shades peculiar to this family of plants.

Note.—These plants require a well cultivated rich soil and prove more successful if planted on a partially shaded site.

PLANTS 1/6 EACH; 15/- PER DOZEN

Book Early for October-November Delivery.

CELESTE—Rich oriental blue, splendid large flowers, held in immense trusses. Tall-growing.

CHALLENGER—Extra large-flowered variety of striking appearance. Rich bordeaux red, suffused saffron orange. A gem.

CHARM—Clear rich lavender pink, attractive flower trusses.

DAINTINESS—Soft lavender pink, deeper blotch on each petal in centre; large truss.

DAYBREAK—White, flushed pale pink, radiating from a distinct eye of deeper tone; most attractive.

DELICE—Medium-growing habit, main colour rose pink, with beautiful cerise eye. Delicate white markings on petals.

DIADEM—Rose pink, self-deepening towards centre, forming a brilliant eye. Well-formed flower trusses.

DREAM—Deep heliotrope with brilliant carmine eye. Tall-growing.

EVENSONG—One of the finest varieties we have. Tall, strong growth, palest pink, with brilliant carmine eye.

EXQUISITE—An unusual combination of blue and white; tall elegantly formed trusses; well worth inclusion in your collection.

GAIETY—One of the best pinks to date; flowers attractively marked with a rich lavender zone in centre.

ILLUMINATOR—Large, loosely formed flower trusses; clear pink illuminated with large carmine eye.

JOCELYN—Clear lavender rose with deep carmine eye. Similar to "Evensong" but colour more intense.

MAGNET—Beautiful large-flowered rose pink; a variety that stands out; large, well-formed trusses.

MYSTERY—Dwarf-growing clear sky blue; well-filled trusses of perfect shape.

NERO—Rich reddish purple with distinct carmine eye. Well-formed trusses.

PEACE—Large-flowered pure white; superb form.

PINK SATIN—As its name indicates, deep satiny pink; extra large flowers, distinct.

ROSAMOND—Large pink, prettily marked white; distinct lavender spots in centre.

SCINTILLANT—Rich glowing salmon orange, with deep crimson eye. Tall, a brilliant flower.

SPECIAL CONCESSION OFFER

We will be pleased to supply collections of **CHRYSANTHEMUMS** in distinct varieties (Our selection) as follows:—

Twelve 7/6
 Hundred 52/6

We would point out to our clients that in compiling the above collections a full colour range will be included regardless of prices of individual varieties shown in our catalogue. Our collections therefore offer a definite monetary saving to our clients and satisfaction is assured.

PERENNIAL PHLOX

STINTON'S GIANT "CLAREMONT" STRAIN

A new large-flowered race, with flowers of perfect form, borne on stout but graceful stems, at least twice as large as the previously best known types. The colours cover a diversity of shades peculiar to this family of plants.

Note.—These plants require a well cultivated rich soil and prove more successful if planted on a partially shaded site.

PLANTS 1/6 EACH; 15/- PER DOZEN

Book Early for October-November Delivery.

- CELESTE**—Rich oriental blue, splendid large flowers, held in immense trusses. Tall-growing.
CHALLENGER—Extra large-flowered variety of striking appearance. Rich bordeaux red, suffused saffron orange. A gem.
CHARM—Clear rich lavender pink, attractive flower trusses.
DAINTINESS—Soft lavender pink, deeper blotch on each petal in centre; large truss.
DAYBREAK—White, flushed pale pink, radiating from a distinct eye of deeper tone; most attractive.
DELICE—Medium-growing habit, main colour rose pink, with beautiful cerise eye. Delicate white markings on petals.
DIADEM—Rose pink, self-deepening towards centre, forming a brilliant eye. Well-formed flower trusses.
DREAM—Deep heliotrope with brilliant carmine eye. Tall-growing.
EVENSONG—One of the finest varieties we have. Tall, strong growth, palest pink, with brilliant carmine eye.
EXQUISITE—An unusual combination of blue and white; tall elegantly formed trusses; well worth inclusion in your collection.
GAIETY—One of the best pinks to date; flowers attractively marked with a rich lavender zone in centre.
ILLUMINATOR—Large, loosely formed flower trusses; clear pink illuminated with large carmine eye.
JOCELYN—Clear lavender rose with deep carmine eye. Similar to "Evensong" but colour more intense.
MAGNET—Beautiful large-flowered rose pink; a variety that stands out; large, well-formed trusses.
MYSTERY—Dwarf-growing clear sky blue; well-filled trusses of perfect shape.
NERO—Rich reddish purple with distinct carmine eye. Well-formed trusses.
PEACE—Large-flowered pure white; superb form.
PINK SATIN—As its name indicates, deep satiny pink; extra large flowers, distinct.
ROSAMOND—Large pink, prettily marked white; distinct lavender spots in centre.
SCINTILLANT—Rich glowing salmon orange, with deep crimson eye. Tall, a brilliant flower.
